

Henry County Voters Head **To Polls In Heated Primary Announces Fall**

BY LUKE EDWARDS Staff Reporter

The voting turnout for Henry County was high, as was expected. Of the 13,573 registered voters, 34.5% cast their votes - well above projections. Although we won't know for sure until later (The Clinton Daily Democrat's news cycle closed immediately after the local polls were tabulated), Henry County favored Vicky Hartzler for the Republican candidate for U.S. Senate, and Trudy Busch Valentine for the Democratic candidate.

For State Auditor, Henry County favored Scott Fitzpatrick (2256 votes) for the Republican candidate; Alan Green was the only Democratic candidate and received 605 votes.

The Republican District 4 Representative candidate most favored in Henry County was Mark Alford with 1553 votes. Votes (for Henry County) for the other candidates were as follows: Jim Campbell, 104 votes; Rick Brattin, 1479 votes; Bill Irwin, 213 votes; Kalena Bruce, 266 votes; Taylor Burks, 176 votes; and Kyle S. During the month of September, the Henry County Museum is bringing Civil War characters out of the history books and into the spotlight. Scheduled to speak are re-enactors and storytellers, including a Civil War doctor, a female spy and a Buffalo Soldier, plus the only female Buffalo Soldier to serve in the historic military group.

On Saturday, Sept. 17, Union soldiers will camp on the grounds of the Homestead, across from the museum complex on Franklin Street, just off the Clinton Square. The Living History Encampment includes the Missouri Irish Brigade and the 8th Kansas Infantry, according to Connie Grisier, an event organizer.

"This is an opportunity to talk to soldiers about what it was like to survive a battle," Grisier said, "and view their tents, military weapons and gear."

The idea for September's living history events originated with Luke Edwards, a museum staff member who

is doing research on the Civil War for the fall Cemetery Walk. Grisier, the museum's children's program coordinator, suggested adding speakers and Civil War re-enactors.

There is no charge to visit the encampment or attend the presentations, on Saturday afternoons and Thursday evenings throughout the month. They start on Saturday, Sept. 10 at 2 p.m with Charles Cunningham portraying a Civil War doctor. Cunningham, a member of the Missouri Brigade Medical Services, will bring examples of medical equip-

ment used during the war and discuss its use.

On Thursday, Sept. 15, at 6 p.m., John Bruce rides out of the pages of history to deliver stories of the Buffalo Soldier. Bruce, a veteran, is president of Alexander/Madison the Civil War Page 3

Another election has bitten the dust. Many thanks to those who volunteer and work the polls to keep our humming democracy along. And to all who cast their ballot. I remember some years ago a Congressional candidate who stopped by the office after a tumultuous election. After placing a thank you ad to those who supported him, he looked at Phronsie and said, "I've learned one thing about politics. There are a hell of a lot of liars in Benton County." With that he spun around and headed out the door.

lot of attention and was just in time for Olde Glory Days. On days when the Olde Glory Days events were running, the museum saw exceptionally increased numbers of visitors and we have enjoyed giving tours to folks from all over the United States and, in some cases, the world.

The Trains of Henry County will not be around long (it ends July 28) and we will be setting up for the annual Silent Auction which will carry us into September. Please remember we can always use donations for Silent Auction items; also please encourage folks you know to join the Henry County Historical Society if they have not already done so. Membership provides ample opportunity to connect with Henry County's past and present, and also for folks to take part in activities provided only through the museum (movie night, guest speakers, etc.). We look forward to seeing everyone at these events.

As a reminder, we are always on the lookout for museum volunteers: docents and greeters are always in demand. Don't worry, we'll train you if you decide to volunteer in these capacities.

The Henry County Historical Society is also trying really hard to get students and younger folks to become members. Students (of any age) are given the opportunity to become members at a significantly reduced rate (\$5 annual fee). They get all the

perks of being a member, too, and it also gives them a chance to learn about the history of the county and be a part of something unique and special.

We hope everyone is well and look forward to seeing you at the Museum!

the Civil War

We are nearing the month of September, and that means WAR-well, revisiting the Civil War, that is...

The Henry County Museum will be changing our lobby display to Civil War items this September. In conjunction with the change in display, we will also be hosting guest speakers and have a Civil War Living History Camp. We will do all of that and have a cook out. It doesn't get much better. folks!

In October, our annual Cemetery Walk theme is about the Henry County residents who fought or participated in the Civil War, too. So, don't miss these September events.

Recent Acquisitions

The Henry County Museum could not function without the donations of folks who continue to help grow our valuable collections and expand the histories of and for the folks in our county.

Recently, Dan Miller donated two paintings to the Museum which gives us an opportunity to not only show off our art collection, but fill in some important historical aspects unique to our county. Mr. Miller's donation expands an important aspect of the Parker family's artistic talents-specifically, those of E.M. "Ike" Parker's brother-Woodrow.

Woodrow, like his brother Ike, was a gifted artist. However, many of his paintings are not in Missouri. Like his brother, he went to California in the 1930s, and served in WWII. But, instead of coming back to Henry County, he made his home in Iowa. There he thrived, running a construction business, but also served as Mayor of Dike, Iowa for two terms. Whether in California, Iowa, or Missouri he continued to paint and even joined art clubs and associations. His works were often featured at art shows in Iowa, too. Woodrow's first wife passed away in 1954 and eventually he would make his way back to Clinton. In 1982 he remarried and lived in Clinton until his death in 2000. The Henry County Museum has a few works of art he made from that two-decade time period, but little from his time elsewhere. Mr. Miller's donation were paintings,

and Ike tended toward watercolor as his preferred medium.

Both of the new acquisitions are on display in the Museum Lobby Annex and, as with all of our displays, we invite you to come take a look at them and enjoy these priceless works of art for yourself.

The Silent Auction-August 2022

It is that time again: time for the annual Silent Auction. As most members know, it is a key source of fundraising for the museum, but it also offers an opportunity for museum members (and others) to donate items the sale of which helps keep the museum financially sound. Also: you never know what will show up here in the auction as many members make valuable and unique donations which are often hard-to-find items.

Set up for the Silent Auction begins August 1st and runs until August 7th at which time the bidding on items will begin. We appreciate any donations to help make the Silent Auction a success again this year and also hope to see you browsing through and bidding on all the unique items.

The encampment is the following Saturday, Sept.17, from 10 a.m . to 5 p.m., along with a "Save the Dorman House" cookout, from 11 a.m. to 2 p.m. The cookout is a fundraiser to repair Clinton's historic ante-bellum home.

On Saturday, Sept. 24, at 2 p.m., Matthew Hulbert appears via the internet to give a virtual lecture on the topic: "Killing Quantrill: The Hunt for Missouri's Most Notorious Civil War Guerrilla." Hulbert's research included interviews with descendants of people involved in the hunt. It did not end happily for Quantrill.

On Thursday, Sept. 29, at 6 p.m., Joyce Slater tells stories in first-person of both Union and Confederate women, who were spies, nurses and wives. The code of the Civil War forbade harming women. As a result, wives were left at home to face recruitment press gangs, and served as spies or envoys, smuggling men and supplies through enemy territory.

"We hope to educate and entertain our community with this heritage project," Grisier said.

Although no Civil War battles were fought in Clinton, it was the site of a skirmish near the Dorman House, which is part of the museum complex. The house is named for Judge Jerubial Dorman, who was in charge of the Home Guard, which was required to be loyal to the Union.

When Union soldiers came to town, however, men who didn't want to be conscripted to fight hid out in the river bottoms west of Clinton. According to a former museum director, a white sheet was flown from the second floor of the Dorman House when it was safe for the men to return home. Structural deterioration to the foundation of the Dorman House has resulted in it being closed. The Henry County Historical Society, which operates the museum, is holding a fundraiser/ cookout on Sept. 17. Cost for a barbecued hamburger or bratwurst on a bun with toppings, sides of potato salad, baked beans, coleslaw and a dessert, is \$10.

Hearse cont.....

His father bought the hearse on eBay 25 years ago, but Curtis said he doesn't remember what his father paid for it. The hearse is so rare that the National Museum of Funeral History in Houston wanted to buy it from them, Curtis said. But the Mills did not want to let it go.

"There are only about four of them in existence," he said. The Mills family restored the hearse and use it for funerals if people request it. He also drives it in parades, Curtis said, or just takes it for a spin round town.

And it's perfect for Halloween, when the Mills family participate in the annual "Trunk or Treat" community event, where children are invited to trick or treat at local business and church parking lots. Last year, the Mills chose a Ghostbuster theme and dressed as characters from the movie, he said. The Packard was also dressed for its star turn.

"That's the year we put the ECTO-1 plate on the front," Curtis said.

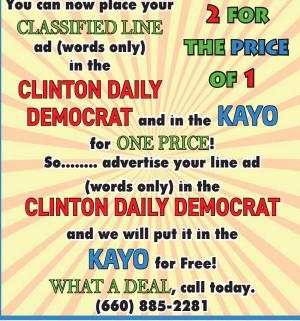

Our native flora follows an ancient pattern of blooming schedules. Early in the spring the smaller short stemmed plants are the first to reach for the sun to flower and produce seed before the taller plants shade them out. It's all about harvesting energy and different species occupy different niches to capture the sun's energy and propagate.

This time of the season

of yellow is the orange butterfly milkweed. Some of the pink and purple species are also beginning to bloom. Common milkweed, wild onion, tickseed trefoil (stick tights), lead plant, ironweed, glade and purple coneflowers and several species of liatris, thistle (we have "good" native thistle) and others.

The Dorman House is listed in the National Historic Register.

During September, the museum will have an exhibit, "A County Divided: The Civil War in Henry County," with artifacts from the era. The exhibit will be in the museum annex, 203 Franklin St., Clinton, Mo., 64735. There is no charge to visit exhibits in the gallery area of the annex.

presentations Speaker will be in the annex or the DeLozier Building, on the Square at the corner of Franklin and Washington. There is free parking on the street, and in the museum lot.

"The goal of the speaker series is to bring alive a significant era in history and show the effects of the Civil War on the central and western counties of Missouri," Grisier said.

Civil War September is sponsored by the Henry County Museum, the Henry County Library and the Clinton Chamber of Commerce, with support from the Missouri Humanities Council and the Missouri Speakers Bureau. Kline Spangler, president of the Henry County Historical Society board, is on the organizing committee, along with Grisier and Edwards.

Organizers hope Civil War buffs, people interested in learning more about local

The hearse the Ghostbusters drove in the movie was a white, 1959 Cadillac Miller-Meteor Sentinel, a limo-style endloader combination, described as an "ambulance conversion." In small towns in the old days, if someone was injured, the hearse was commandeered for transport, Curtis said.

My father used to tell this story from his teenage years in Licking, Mo. When his father, a doctor, had a patient who needed to go to the hospital in Rolla, Dad and Grandfather Reed had to go to the local funeral home and borrow the hearse. Then they picked up the injured person, who was loaded in the back.

Grandfather Reed would drive like a "bat out of hell" up to Rolla, Dad said, where he would perform the necessary treatment or operation. Leaving the patient in the hospital to recover, my father would drive the hearse home, letting my grandfather climb in the back and go to sleep.

One time, Dad was hungry and stopped at a roadside diner, leaving his father sleeping in the hearse. It was a nice night, Dad said, and there were lots of people out visiting in the parking lot.

But when he came out, he said, it was dead quiet. Everyone had left.

That's odd, he thought, until he realized that his passenger was no longer in the hearse. Grandfather Reed had woken up, gotten out and walked into the diner, leaving a story in his wake that people are probably still telling their children and grandchildren.

The Mills' ECTO-1 is in the shop for a tune-up, Curtis said, which is understandable, given the miles on the engine, and stories that it has rolled up on the odometer.

I guess I should have had a delivery truck this week. Parts of Monday, Tuesday and Wed., I delivered Olde Glory Days banners to businesses and individuals. These are the banners you would have seen over the last several years hanging up on Second and Ohio streets and around the Downtown Square before and during OGD. Since Olde Glory Days is celebrating its 30th anniversary in 2023. we have decided it's time to get some new banners for the next few years. If you would like your name, family, business, church, group, club, organization on a banner, be sure to stay tuned as that information will be

shared before the first of the year. We will promote the new banners for sale on the OGD and Chamber Facebook pages, in this weekly update, in our Monday newsletter that goes out to our Chamber members and other ways as well.

Don't let human error in one building keep you from going into our wonderful businesses on the Square. You can be 'Featured', BUT YOU DON'T HAVE TO BE IN FRONT OF THE CAMERA. READ MORE HERE:

You want your business to be featured but you don't want to be recorded. We can do that with pictures and a story.

The day after Labor Day last year, the Clinton Chamber began our 'Featured with David Lee' program. If you are a Chamber member, you could be 'Featured'.

We recorded more than 50 videos in the fourth quarter of 2021 and filled the Chamber's Facebook page with those videos of our Chamber members. The videos featured business owners, managers and others getting the message out to the public.

The Facebook posts featured the interview and photos of area businesses. Once a week for a month, the 'Feature' was brought back to the top of our Facebook page. After a month, of course it will still be on our Facebook page.

8/4/22

HOWEVER, we realize not everyone is comfortable in front of a camera being interviewed. So, David can come to your business, take some pictures and you can tell him what you would like the Chamber to say about your business and we'll include that info along with the photos.

We will post these photos along with your information on the Chamber's Facebook page and update it on our page once a week for a month.

So contact us at 660-885-8166 or email david@clintonmo.com.

We are also still recording the videos as well if you would like to do that.

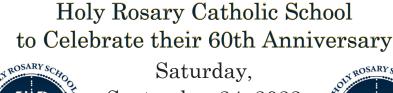

It's just another service of your Clinton Chamber of Commerce.

We have several committees here at the Clinton Chamber and volunteers are always welcomed. Our committees include Academic Excellence, Agriculture, Ambassadors, Military Affairs, Olde Glory Days and Tourism. Under the Sign of Hunt's: East Meets Midwest at **Mid-MO Antiques**

MID-MO ANTIQUES, Furniture, Coin and Jewelry is located in the former Hunt's Home Decorating store on south Main.

BY JENNIFER JACKSON Staff Reporter

Are you hunting for antiques to furnish your home, or pieces to add a focal point to a modern room? Looking for paintings, tapestries, mirrors, rugs, jewelry or vintage clothing?

Mike and Dana McIntyre are the owners of a new business on South Main that is based on an old one. It's name, Mid-MO Antiques, Furniture, Coin and Jewelry, reflects the variety of merchandise inside.

The McIntyres bought the stock of the former Hunt's Home Decorating store from Phyllis Hunt last November. Hunt's, formerly owned by Phyllis and spouse Chuck Hunt, was in the vellow-brick Burnham-Ortner row of store fronts, built in 1947, in the 300 block of South Main.

The Hunts carried Benjamin Moore Paint, window blinds and wallpaper, and offered picture framing. Phyllis Hunt added antiques to the mix after going on buying trips to

pany required him to travel. Dana is the daughter of Bob and Audrey Browning and a 1971 graduate of Clinton High School. Two of the McIntyres' four children live in Clinton, as do six of their 17 grandchildren

The McIntyres live a 1880s-era house on North 3rd, which they furnished with antique pieces. Subsequent finds circulate through their living spaces. "I'm sitting here right now thinking about what I'd take home," Dana said. "I'd trade some of my stuff out."

The most challenging part of starting the business has been going through all the stock, Mike said. It ranges from antiques, at least 100 years old, to vintage items, defined as made between World War I through the 1970s. Stock includes old toys, knives and tobacco pipes. He has also found a lot of Disney memorabilia, and recently, found a Beatles poster when he was going through a stack of prints.

"It's a discovery," he said

us," Dana said. The McIntyres are open by appointment. Call 816-

nized by CMS for what our staff dedicates themselves to every day," said Craig Thompson, CEO at GVMH. "This rating demonstrates our commitment to providing the highest quali-

the East Coast. The result: tons of stuff in storage that needs to be processed and placed on the sales floor.

"It's continually going to be coming out," Mike said. "It's going to be an adventure."

In addition to taking over the stock of Hunt's Home Decorating, the McIntyres took over the same space, which still has the "Hunt's" sign over the door. The McIntyres rent three sections of the row of store fronts along that block of South Main. The central one is their store. The one to the north is their daughter Matilda McIntyre's Photography and Design Studio (660-869-7742).

The third is stuffed with items that Phyllis Hunt bought on her antique hunting trips — furniture, paintings, prints, pottery, etc., plus bolts of upholstery fabric and wallpaper from the previous store. Mike also has the old Benjamin Moore signage from the Home Decorating store, plus a box of painters' caps and paint stirrers, Mike said.

"It's all collectible," he said, noting that vintage Benjamin Moore paint-can openers now sell for \$10.

The McIntyres have a history in the local antiques trade. For six years, they rented space at Wagon Wheel Antiques, going from one to three booths after Dana started working there one day a week. They have always bought antiques for their home, Mike said.

Mike said he sees owning the antique business as a means of transitioning into retirement. The McIntyres moved to Clinton in 1982, where Dana grew up, after Mike's job with an oil comof sorting through stock.

They also have pottery, including Rosewell. Serving pieces of transferware, pewter and silver are displayed on antique tables throughout the store, along with lamps and vases. Brass chandeliers hang from the ceiling, A display of baby gifts is arranged on one table.

"None of it is junk," Mike said of what Phyllis Hunt acquired on her buying trips. "She had good eye." A jewelry collector comes in to check their stock of jewelry, Mike said. Mike has always dealt in coins, he said, and is interested in buying coin estates as well as estates with antiques and furniture.

"We work with dealers, wholesale or retail," he said.

While much of the stock is from the East Coast, an item with local provenance is the shoe-shine stand from the Cozart Hotel, which used to be on the Clinton Square. The upholstery on the seats is gone, Mike said, but the stand is pink marble with brass covers for the foot stands.

"It's a classic," he said. They also have old books, including a first edition signed Harold Bell Wright, Windsor.

Mike and Dana are not discouraged by antique stores closing in Clinton and the area, they said. While Wagon Wheel Antiques is still rolling along at 219 E. Douglas, between 2nd and 3rd, the last antique store on the Square has closed, as has the large antique store on Highway 7 South, near the Bucksaw turn.

Instead, they see it as creating an empty space in the market.

KYLE FOSTER

Kyle was born in Clinton, MO on August 23, 1985, Kyle was the second child of Kevin and Karla (Church) Foster. He and his two brothers Johnathan and Dustan were raised on their family farm west of Deepwater. While the family took pride in their small farm and the outdoors, Kyle was born with a passion for farming. He also was first to lend a hand to his family, friends, neighbors and even strangers without being asked. The mentors and role models throughout his life shaped him into the genuine and caring person that everyone loved and will greatly miss.

During his childhood, Kyle spent many hours with Valerie Meeker, his Aunt Lora, and his brother Dustan. Weekends were frequently spent at his Grandma Jane's. He enjoyed telling others about their card games, fishing trips, and going to Clyde's for a competitive game of pool. During school, Kyle was involved in several clubs, activities, and sports including FFA before graduating with the Lakeland High School class of 2004.

Kyle began working at the Deepwater Quarry whenever he was 15 years old. On the rare occasion that he wasn't working, ou could find him with family, hanging out with one of his close friends, helping Chane at the tow yard, or helping his brother and business partner Johnathan with their 2 Dead Beats DJ business. He enjoyed going to dirt track races, riding horses, playing yard games while cooking out, and going to Lakeland ball games where he would call his brother Dustan to give updates and analyze the game. Kyle was also very involved with the Deepwater Volunteer Fire Department and took great pride in his role as Fire Chief. He loved his family and enjoyed every minute that he spent with them. Kyle had several friends that he considered his brothers. He looked forward to frequent phone calls to check in on his family and buddies. Kyle's love of farming was evident even at an early age. When he was only 9 years old, he met Valerie's boyfriend and future husband for the first time. Assuming that Matt was just a rookie, Kyle climbed up on his lap in the tractor and proceeded to show Matt how to rake hay. Of course, Kyle knew exactly how to do it and Matt never told him that he had raked hay just a few times before that. Little did the two of them know, that was just the beginning of an inseparable bond that would grow into something so special for the both of them. Throughout his life, Kyle was employed by Deepwater Quarry, Corotech, Tristate Masonry, Harper Drilling, Deepwater Tow, and Meeker Farms. He loved being able to farm and also help others while on the tow truck.

Of all the world's languages, English is one of the most difficult to learn. This is due to the many different facets and rules. English sounds (phonemes) are difficult as to how a word is spelled, compared to how it is spoken, e.g., how the "a" is pronounced in cat, late, and wasp.

Homonyms are words that are spelled differently, with

if he was the one who was to come. Perhaps he wasn't absolutely sure, but he did baptize Jesus and he saw the dove come down upon Jesus's head.

Being a witness to that, he had to know Jesus was the one, but because of doubt that set in, he asked his disciples to go and ask Jesus. Jesus didn't give an answer, he instead healed many. Then he told the disciples to go back and tell what he had witnessed

He told the disciples " May the work I've done speak for me. Jesus let his work speak for him.

Mark 6:22-24

The woman wanted John's head cut off because he reprimanded her for being with a another man. Mar 6:18 For John had said unto Herod, It is not lawful for thee to have thy brother's wife.

Mar 6:19 (KJV)

John had the spirit of Elijah. He came to paved the way. God sends us to do the same. May the work we do speak for us. God Bless.

Millions of people today proudly proclaim they are "spir-itual, but not religious." They consider the church to be a man-made institution not worthy of their time and attention. These "spiritual, but not religious" folks want to distance themselves from the church and its rules, regulations, and especially its doctrines that don't match up with their personal beliefs or lifestyles.

Ever since Adam and Eve in the Garden of Eden, people have chafed at being told what's right and what's wrong; what to do and not do. People want to choose for themselves what they "feel" is right, and what they "feel" is wrong. They think each person should be allowed to establish their own "doctrines", and decide for themselves what is right and wrong for them. Life is so much easier that way.

Unfortunately for the "spiritual but not religious" crowd, that's not God's way. Jesus Christ established His church for us and for our benefit. It is where the Law and the Gospel are proclaimed. The Law tells us what God demands of us; It works contrition in us. The Gospel is what Jesus Christ did for us to satisfy God's demands. Through Word and Sacrament, it creates and strengthens faith in us and makes us Holy and righteous in God's sight, for Jesus' sake. The church is not the enemy. As followers of Christ, it's

our privilege and responsibility to be a part of His church while here on earth. Come to church this Sunday. It is a blessing, not a burden. There is no other place where you can be sure to find God waiting for you with his gifts of grace, forgiveness and faith unto life everlasting. Amen. a different meaning, but pronounced the same, e.g., to, two, and too. Even in past tense, there are weird rules. Past tense for teach is taught, while past tense for preach is preached. These types of rules make it difficult for any

beginner to learn. There are also words so nearly alike, they can be confusing. A story is brought to mind of a mother who was helping her young son to spell two words, conscious and conscience. Asking her son if he knew the meaning of the two words, he said, "Sure. Conscious is when you are aware of something, and conscience is when you wish you weren't." This may bring a smile, but remember that God gave us all a conscience. Listen to it, and you may avoid some pitfalls (1 Timothy 1:18-19 NIV)

We are officially in the very middle of summer. Some in our church family are on vacations, with a few others being stricken with COVID. Our prayers go forth to those traveling and those suffering from illness. School will be starting soon, and our evening youth group will once again start meeting in September.

Due to our minister's family being hit with COVID, Bro James was unable to be with us again last Sunday. Ken Jones graciously filled the pulpit for us with a message from 1 Peter 1:3-9. These few passages are filled with encouragement and wisdom. We can have grace and peace, with a new inheritance in heaven that is protected for us by God, through our faith. Peter tells us that our faith is of greater worth than gold. We may suffer grief and trials, but this will prove our faithfulness. Through our belief, we will receive the goal, which is our salvation.

Golden Valley Christian Church meets at 611 South Third Street in Clinton. Sunday School classes begin at 9:30 AM, and the morning worship service is at 10:30. Our Wednesday evening Bible study is suspended for the summer. Our minister is James McFarland (office phone # 660-890-0252), and our website is www.goldenvalleycc.org, where you will also find a link to access our Facebook page. We are happy to invite you to attend our services, where you will always receive a warm welcome.

Mt. Calvary **Apostolic Pentecostal** "May The Work I've Done Speak For Me"

Luk 1:13-17 (KJV)

We are servants of the Lord and it is our job to make ready a people for the coming of the Lord.

John, known as John the Baptist, who was

Born to Zacharias and Elisabeth was a great person. He had to bring about change in the people from the Old Testament and Moses's law and they did not baptize.

To grace and the New Testament and water baptisms. Where the law covered it in the Old Testament, in the New Testament individuals would be baptized.

We have to have the voice of God in our messages to touch people's heart. As it is the voice of God that pricks our hearts.

John's preaching was so effective that people came from the city to hear him preach. He also baptized them in the Jordan River.

When John was in prison he sent his disciples to ask Jesus

We are people of faith and the body of Christ. We come to worship this morning to feel His refreshing presence and seek his truth and what is right and good.

We wish John and Peg a happy anniversary! Rev. Dane read a thank-you note for our donation to the Ukraine as they continue to fight for democracy for all of us. Mary Chapman reported that she had a great birthday WEEK that was full of fun and an abundance of love! Many plans are being made for our church's 150th celebration on September 18th and for our annual Oktoberfest on Oct. 15th.

We are brothers and sisters together in our faith with the Orthadox, Catholic and Protestant churches. We are united in knowing that there is a living God and he is alive within us. Our offerings are a statement of helping and giving generously to those who are in need. We keep the fire going within us to bring justice and peace into the world and have a direct prayer connection to God.

The parable about the rich man whose land produced an abundant harvest, reminds us that things can change quickly. The man used this abundance as a means of control and only for himself. It ends with God telling the man that it is fools who store things only for themselves, for they are not rich toward God. It seems to be human nature at times to build false security with our abundance rather than give to God and to those who have need here and now.

We may be little like the rich man with all of our abundance. It is easy to set ourselves up with more and more. But there will come a day when all of our abundance is gone and our lives are over. An important question is, did we share this with others or will we wake up too late after we have kept it all to ourselves?

We are not supposed to control everything, but we are to give generously as we gather our own abundance. And as faithful people, we are to open our doors and welcome all to come in.

The good news is His unmerited gift of grace is given to each of us. We boldly say, "Once we were no people, but now we are God's people." There is nothing that stands between us and God. No one can define our faith, No one else can stand and mediate for us between right and wrong. It is between us and God.

WEEK OF AUGUST 1

 $\mathbf{r} \otimes \mathbf{x} \odot \mathbf{v}$

WEEKLY HOROSCOPE

Cancer 6/21-7/22: As the week starts, you'll be extra focused on elevating your standing with higher-ups and receiving recognition for your efforts on the job. Own this need by clarifying exactly what you want to achieve, then express that to those who support you the most. You'll find that by being bold and driven, this transit can power up your efforts to advance your professional aspirations. Later, you'll be feeling extra warm and affectionate toward all of your connections-platonic, romantic, and anything in between. If you're up for it, you can use this emotional moment to put in pragmatic, intense work on the relationships you value most. Leo 7/23-8/22: When the week begins, you might very well be feeling restless. Give in to the urge to travel or otherwise broaden your horizons (think about using a meditation app or attending a sound bath). This can prove

inspiring and set the tone for exploring a wide variety of avenues that feed you spiritually and intellectually. Later, you're stirred to pursue even more balance and creative fulfillment from your work. Connect with colleagues and higher-ups with whom you've built long-standing relationships and discuss where you want to go from here. You'll be fired up to take the next steps toward achieving even greater success.

Virgo 8/23-9/22: At the start of the week, you'll be focused on feeling even more centered in your deepest feelings and most intimate connections. Understanding how you relate to others and the foundations of your closest relationships can lead to greater self-awareness and confidence, not to mention fulfillment of your most pressing emotional needs. Later, the cosmos offers you even more clarity on your most intense desires. You can harness the power of the planets to design your very own signature game plan for pursuing and fulfilling these long-held fantasies.

Libra 9/23-10/22: At the beginning of the week, you'll do well to commit to an aspiration you share with your closest colleague, friend, or significant other. Whether you want to build a business or take your relationship to the next level, you'll have the focus and collaborative power to map a winning course now together. Later, it will be even easier to foster your closest bonds. Identify activities that bring you the most pleasure in your relationships, then allow yourself to be in the moment. You deserve to be fully present and joyful.

Scorpio 10/23-11/21: You'll be presented with an opportunity to pinpoint health goals and strategies for achieving more work/life balance as the week begins. If there's a fitness app you've been wanting to try, an acupuncturist you've been hoping to see, or a yoga instructor you've been eager to check out, now is your chance to explore and home in on what the next chapter of your self-improvement journey will look like. You'll be filled with the promise of amplifying your vitality. Later, the stars fuel your need to shake things up with your significant other or in terms of how you've been pursuing a romantic relationship. You'd do well to trust your gut.

Sagittarius 11/22-12/21: As the week starts, you'll be feeling downright inspired. It's time to put monotonous work aside, which might truly be weighing on your adventurous spirit, and lean into the fun-loving energy that has you fired up and ready to leap into a new relationship, stimulating professional project, or travel experience. The mood is right for proposing that creative project or setting a whole new magical tone around your nearest and dearest relationships. Later, you'll have a bright green light to pursue big-picture earning goals. Again, if you're feeling less than passionate about your daily work, talking to friends and colleagues about other opportunities could prove particularly rewarding now.

Capricorn 12/22-1/19: At the beginning of the week, you'd do well to really tune in to the roots of your feelings and take steps to elevate your personal power. You have a chance to set intentions that will enhance your feeling of security. Talking your needs through with loved ones can be a promising way to lay the groundwork for your vision. Later, the stars amplify your optimism and loving spirit. You'll want to prioritize time with friends, family, and significant other. Putting work aside to be truly present and connected with your nearest and dearest can go far to bolstering your bonds.

Aquarius 1/20-2/18: Spending time with friends, neighbors, or even strangers tends to be your forte, and early in the week, the more you can engage in animated conversations with a wide variety of connections the better. You might be stunned by how quickly a casual discussion turns into a truly inspiring game plan for achieving a long-held professional dream. At the very least, you could forge new, intellectually stimulating bonds. Later, you're stirred to consider switching up your current living situation. Although you tend to be a creature of habit, you're realizing that change is on the horizon and embracing it will serve you well.

Pisces 2/19-3/20: If you've been feeling unfulfilled or stuck in your current professional path, you'll have a fruitful opportunity to turn the page early this week. This is fertile ground for envisioning a new definition of success. Run any money goals by your intuition and you'll be right on track. Later, the cosmos infuses your platonic connections with a special lightheartedness and warm, cozy affection. You'll want to be even more open about your feelings than usual while hearing out your loved ones about what's in their hearts. This can strengthen your relationships and have you feeling extra supported.

Aries 3/21-4/19: As the week begins, the cosmos intensifies your desire to acquire more power and recognition for your efforts. Pinpoint your exact goals and then go after them with your signature passion and fire. You'll be unstoppable. Later, you have an opportunity to get clear on what you want to achieve in the weeks and months ahead and then take concrete steps toward them. You'd do well to home in on healing strategies that allow vou to address and bury old emotional wounds in order to make space for the successful new path you want to forge for yourself.

Taurus 4/20-5/20: Early in the week, you'll be compelled to carve out solo time dedicated to resting, recharging, and tuning in to your intuition through meditation or a similar form of reflection. While you tend to train your focus on set patterns and goals, it's best for you to let go of preconceived notions about how you should be spending your time and just be right now. This type of mindfulness can lend itself to more self-understanding that you can use to amplify your focus and success in the weeks and months ahead. Later, the stars amplify your clarity and passion. You can channel this toward energizing existing relationships or envisioning the horizon-broadening type of partnership you aspire to build.

Gemini 5/21-6/20: You could feel uncharacteristically laser focused on fulfilling a longtime fantasy at the start of the week. If you're attached, sharing your thoughts and desires with your significant other can open the doorway to fulfillment. If you're single, meditate and perhaps even do a special ritual to manifest the connection and experience you're dreaming of. Later, you have a significant opportunity to connect with colleagues. Brainstorming ways you can work together to advance shared aspirations feels enlivening. Although you're a people person by nature, this moment truly lends itself to working with others and feeling like part of something greater than yourself.

'Project Bond' Should Be **Breaking Ground Near** the End of the Year

MARK DAWSON

The Clinton City Council met in open session July 19 at City Hall. Prior to the meeting the Building Commission convened; the meeting was very brief as there were no changes from the previous meeting to report, and the commission adjourned a few minutes after opening.

The regular city council meeting was called to order by Mayor Carla Moberly; absent were Councilpersons Debbie Smith and Roger House. Following the approval of the previous meeting's minutes and the saying of the Pledge of Allegiance, a report from Economic Development Director Mark Dawson was heard. He kept his report brief – he reported the economic team had followed up on eleven leads this year so far and that "Project Bond" should be breaking ground near the end of the year. He also reported "Project Queen" was still being pursued. The project has been alternately off and on for a while now: "This project has more lives than a train full of cats," said Dawson. He also reported expansion projects of TC Continental and that the Henry County Health Center should start construction this fall on their new building. He also reported that, at last, he was able to secure a housing senior housing study. Dawson has been trying for a few years to secure this study. "Things are going well," he concluded. Councilman Cameron Jackson gave the Public Works report: he said the Calvird Pump Station replacement bids for two pumps would cost \$149,000 and that the delivery date for actuator replacements at the Waste Water Treatment Plant was 17 weeks. The sewer surveillance project, looking for COVID traces in the sewer supply, did not indicate any the new variants of COVID, but did show a slight "uptick." A start date for the Franklin Street Bridge Project has been tentatively announced for August 15. It was also reported that the initial cost of \$100,000 (the city's portion) for railroad crossing repairs was no longer required. Reported, too, was that the street sweeper for the city was out of commission (and awaiting parts) as is the

city's boom-mower. The open-top trash containers located at the Transfer Station were approved to be declared surplus property to be sold. The roll-off style containers have been repaired multiple times and are no longer deemed safe for use. Dates for the closing of the Community Center's gym for repairs were reported.. The floors will be re-done, and repairs start August 11. It will re-open on August 22 (for complete closure schedule contact Parks and Rec). A short discussion about potential shoe requirements while in the gym was held. It was reported that a repair to one of the Artesian Park restroom toilets will be effected after some fireworks were flushed during Olde

Glory Days events. The Park Board had met to discuss the design for the bathhouse rehab project at the outdoor pool but did not have a quorum. The bathhouse option design the council approved will largely leave the shape of the original building unchanged, but with modifications and upgrades throughout the interior.

A motion to declare a 2003 F-150 with 80,000+ miles surplus property and for sale was made and approved by the council. Midwest America Pool's work on the outdoor pool is not technically complete yet: anchors which hold the ropes that separate the deep end of the pool from the other portion will need to be repaired/replaced. The matter may have to wait until the pool closes for the year. Retainer fees have been withheld from Midwest America Pool until the repairs are effected.

In regards to a request at a prior council meeting to determine ownership of the Sweeney-Owen Cemetery (by Nick Smith), the city attorney has been investigating the deeds for the property in question. The assessor's office did provide the documents for review, however, they are quite old and hard to read. A request for other documents has been made. It was also reported that Code Enforcement will be taking another look at junk vehicle violations. The Public Safety Committee report was given by Councilman Gene Henry. He reported the police department is down one full time employee (and struggles to fill that position). Fire Chief Mark Manuel (present at the meeting) reported the promotion of three new firemen in rank because of recent departures at the department. He reported the hiring of one additional fireman as well. "They will fill these roles very well," said Chief Manuel in regards to the promotions and new hire. Councilman Daniel Wilson gave the Public Works report. Since it has been four years since the city advertised for bids for banking services, it was time again to do so. Advertising for those bids will begin soon (an August 11 deadline).

Mayor Moberly's report included the recognition of the hard (and extra) work put in by city staff. "Lots of departments are short of help. Your hard work does not go unnoticed," she said. She also wished to reiterate that the city's work in decreasing workman's comp claims was something to be proud of. In fact, the city recently won an award for having the most decreased claim amounts in the state.

The City Administrator reminded the council of the second budget work session coming up and the Clinton City Council adjourned to executive session at about 6:30 p.m.

Attends National Youth Leadership Forum's Law and CSI Program

This summer Caitlyn Bryant, a junior at Clinton High School, attended the National Youth Leadership Forum's Law and CSI Program in Washington, D.C. She joined 100 high school scholars, who also have interests in the criminal justice field, at George Mason University. They participated in-site visits to a Virginia crime lab, the James J. Rowley Training Center, and the National Law Enforcement Museum. These scholars learned from experts in the field, culminating in working a simulated crime scene and taking that case through trial. Students build the confidence and skills needed to excel at college and in the workplace. They learned how to adapt to and communicate in new situations, to

face new challenges, and immerse with new people. These are essential skills for success, given how rapidly the world is changing due to technology and innovation. Caitlyn was nominated for this program by the history department, through her American Government teacher, Mr. Tucker.

Looking at Lenny OK, quick... name the top All-Time Chiefs QBs. Most would, of course, think of Mahomes, Trent Green, Joe Mantana, Alex Smith and I hope, Lenny Dawson

(Leonard Ray Dawson). The other QBs would come in second, and there is a lot of them. Remember Rich Gannon, Matt Cassel how about the Chiefs very first QB, Cotton Davidson. I always liked Elvis Grbac, mainly because of his name. Back to Lenny 'The Cool' Dawson.

Lenny was born in Ohio in 1935, the seventh son of a seventh son. A great HS athlete, getting All-State in football and basketball. Dawson was recruited by Ohio, but picked Purdue (Indiana) largely due to his budding friendship with

Hank Stram. Years later this friendship with Stram changed his life. Lenny in his sophomore year threw four TD passes to beat Missouri 31-0 in 1954. If you remember that then you are old. He was drafted by the Steelers, but with no success. He was traded to the Cleveland Browns, but still no success. Asking for a release Dawson signed with the AFL Texans in 1962 and you might remember, he finally had success, Quite a bit of it. He was the league MVP in 1962. He led the Texans to three league titles. The Texans moved to KC to become the Chiefs. Lenny kept getting wins. From '62 to '69 Dawson threw more TD passes than any other pro QB. "Lenny the Cool" as his teammates called him, took the Chiefs to the first Super Bowl in 1967. Losing to the Packers (35-10), but they came back to win Super Bowl IV in 1970 beating the Vikings 23-7. Hank Stram was carried off the field but Lenny was the MVP. Lenny had few injuries (the new moving pocket helped a lot) but in

4H SHOOTING SPORTS, incluidng Shotgun, Archery and Rifle were on display at the Henry County Fair last month. The events are organized by Chet Jones and Wes Carter.

EVENT ORGANIZER Chet Jones stood with the shotgun "Top Gun" Bailey Carter. Bailey shot his first 50 straight.

The 4H Shooting Sports were held in conjunction with the Henry County Fair on July 19-21. The shooting sports included Shotgun, Archery and Rifle.

A huge highlight from the 4H shotgun contest was Bailey Carter shooting his first 50 straight. Hitting 50 straight clay 'birds' in a row is a big achievement. Carter and the other 4Hers celebrated the traditional way...throwing his ball cap up and his friends giving it a good shot (shown in picture).

The 2022 National Tournament was held in Grand Island, Nebraska. At Nationals other types of shooting sports are contested, such as Pistol and Muzzle Loader.

Results from the local contest: Shotgun - Senior division (14 years old +): 1st - Bailey Carter (96 points), 2nd - Keon Engeman and Tyler Johnson (73 points), 3rd – Blake Wareham (66 points). Shotgun – Junior division (11-13 years old): 1st - Mason Shumate (27 points), 2nd - Owen Hetherington (21 points), 3rd - Hadley Carter (20 points).

Team Kenney To Coach Clinton Cross Country Teams IEdilis

The East Missouri Crappie Club had their 5th tournament of 2022 on Saturday, July 16 on Truman Lake.

There were 18 boats and 39 anglers battling it out.

Congratulations to Mike Vallentine and Jesse Shoemake for bringing in an impressive 11.26 pounds and taking first place.

Matt Thomas and Kevin Reller were close behind with 10.36 to take second, followed by Mike Boylan, Mike Wehde, and Tim Besselman with 9.26 for third place.

The Big fish of the tournament went to Matt Thomas and Kevin Reller with a 1.81 pound crappie.

Congrats to all the teams. Many are looking forward to seeing everyone at the Jack and Jill tournament at the Mark Twain Lake on August 6th.

Clinton Cross Country On The Run

The Clinton Cross Country teams, high school, and middle school, have been running in the mornings

for a couple of weeks now. These student-athletes get up early and meet at the high school at 6:30 a.m. to run the Clinton streets. That is what I call dedication. One of the neat things about Cross Country is that often the coaches will run with their kids. Above the runners are off for their morning run with head coach Jake Kenney following. To the left is James Barnes, a CHS history teacher who volunteers his time to help with the Cross Country teams. The Cross Country coach at CMS is Brian Tennal.

On July 18 the CSD was proud to announce it has selected Jake and Melana Kenney as the head coaches of the CHS Cross Country teams.

Jake and Melana, 2001 graduates of CHS, are familiar faces both in the district and in the community. Jake serves as the CMS Assistant Principal and, together, they both have coached many youth sports over the years with their five children, including soccer, basketball and summer ball teams. Jake was also the 8th grade basketball coach for four years.

The Kenney's were both three-sport athletes in high school. Jake excelled in soccer, basketball and tennis, while Melana played softball, basketball and ran track. Melana was a state qualifier in the 4x800m and Jake was a two-year member of the district champion basketball teams.

"We are so excited to help grow this already successful program that took four kids to state last year," says Jake and Melana.

"When my family moved to Clinton, we met a lot of great people," says Activities Director, Alex Johnson. "Two of those great people who welcomed us with open arms were Jake and Melana Kenney. From the moment I started in my position, I had the privilege and honor of working closely with Jake in his previous role as Henry Elementary As-

sistant Principal. Through working with Jake, that opened the door to also getting to know Melana. As I observed 'Team Kenney' support their own kids in various sports, it was clear that they also were loyal supporters of all our Clinton Cardinal Athletes. To me, this speaks highly of the character both of them practice on a daily basis and

is one of many reasons I am so thankful to add them to our staff. I look forward to working with them in their new roles and I know they will do great things as a team for our Cardinal Cross Country program. Congratulations Jake and Melana!" Historical Note: Many may remember Clint and Karen Sanders, another great 'Cardinal Couple'.

They coached Clinton Cross Country several years ago. During their coaching and teaching years, it was common for their teams to medal at State. The girls team medaled five times ('91,'92, '93, '99 and '00), winning the 3A State Title in 1993. The boys team won three State medals ('97, '98, '99).

1969 a knee injury kept him out for five games. But he returned to the lineup later and helped the team win SB IV. I remember both Super Bowls, but my clearest memory of the Dawson years was the "spearing' incident. The Chiefs were about to beat the hated Raiders when Oakland's Ben Davidson speared Lenny while Lenny lay on the ground. Otis Taylor attacked the big defensive end and the benches cleared. The penalties cost the Chiefs the game, but it sealed the rivalry/hatred between the two teams. Plus, the incident made the friendship between Dawson and Taylor stand out, which was nice to see back then. Lenny's only black eye was a short, later

Lenny was named the NFL Man of the Year in 1973. He retired in 1975 and went into broadcasting full time. He retired from broadcasting in 2017. He was inducted into the Pro-Football Hall of Fame in 1987. He was married to his HS sweetheart, Jackie, until her death in 1978 (stroke). They had two children. He has remarried. He was diagnosed with prostate cancer in 1991. He still lives in KC.

Missouri Girls Wrestling Shoots for Stars

8/4/22

MSHSAA only created a separate high school girls wrestling division four years ago, but the sport has clearly taken off. Recently a Missouri girls team, including Clinton's Amitria Mc-Nack, went to the National Dual Tournament in Tulsa Oklahoma, and took 5th. In this Gold/Silver bracket California took first. In the Bronze Bracket, Missouri took 2nd and Ohio took first. Not bad for a State that was late to the dance.

Plus, Missouri took a record-breaking 97 girls to the USA Nationals, July 19-22, in Fargo, ND. This number not only broke the tournament record, but the squad took 2nd in the 16U tournament. Iowa took first with 90 points, Missouri was close with 87. In the Juniors' tournament Missouri placed 4th. Missouri is doing well.

In the Junior division seven Missouri girls placed. Amitria was the only one who made it to the championship round. The other six girls placed 3rd through 8th.

Many that were questioning if Missouri girl wrestling would make it have nothing to worry about. Go Missouri girls!

Courage2Report Missouri empowers adults and children to be the solution in addressing community and school safety. C2R provides a "sooner is safer" tool to report real time concerns 24 hours a day. All school buildings are pre-loaded into the system, simply choose the one that needs to be aware of the concern. There are several ways concerned persons may submit a C2R report:

through an Apple or Google Play Courage2Report mobile app,

 by making an online report via http://www.mshp. dps.missouri.gov/MSHP-Web/Courage2ReportMO/ index.html, or

• by speaking confidentially to a trained professional at 866-748-7047.

C2R Missouri calls and tips (web and mobile app) are answered 24 hours a day, 365 days per year by trained communications professionals and include two-way dialogue. Reports are sent to the appropriate school and/or law enforcement agency for investigation and follow-up. Information in C2R reports allows schools and their community partners to proactively manage potential risks and increases school safety.

C2R Missouri requires a disposition report be returned on each tip report, notifying the Missouri State Highway Patrol of the outcome.

Schools are urged to verify their administrative contact information is up-todate and available to C2R staff. This ensures the correct individuals are notified in the event a C2R report involves their school. Any schools that are not familiar with the C2R program may request a C2R Missouri School Contact Form from the administrative office by calling 866-362-6422. unwanted, inappropriate, or sexualized communications with children. Man Arrested For Promoting Child Pornography

The Missouri State Highway Patrol's Division of Drug and Crime Control announces the arrest of Nicholas Cordiero, 26, of Warrensburg, Missouri, on Tuesday, July 26, 2022, for promoting and possession of child pornography. The arrest was the result of an investigation conducted by members of the Division of Drug and Crime Control's Digital Forensics Investigative Unit and the Missouri Digital Forensic Center.

On Tuesday, July 26, 2022, investigators contacted Cordiero at his place of employment in Warrensburg, Missouri, regarding an ongoing investigation. PRAY BUT DON'T BEG

In Luke 11, in response to a disciple's request for prayer instructions Jesus told the following story. Some guests stopped by a man's house unexpectedly. As can happen to anyone, the man's cupboard was bare. In the ancient East, failing to host visitors adequately was considered grievously rude.

The would-be host went to a neighbor and asked to borrow bread to feed his unexpected visitors. The neighbor had already gone to bed and provided the needed bread only because the neighbor-in-need would not stop knocking/asking. Using this parable, our temptation is to assume God can be persuaded to do our bidding by much supplication. That would make God a reluctant provider and us beggars. That is not a Biblical picture of God or us.

While Jesus certainly wants us to be faithful in prayer, in the same passage of scripture He gives us His understanding of prayer. Long prayers are not necessarily better than short ones. Jesus Himself said prayer is not answered by much speaking. (Matthew 6:7/8). In other words, long prayers are not necessarily better than short ones.

In this same passage, Luke 11, Jesus taught us to pray like one talking to a loving father. If we pray for something we want but the Father knows we do not need, He surely will not give it. If we ask for something that is wrong, the Father whose task it to teach us ethics will refuse.

When I was child, I awoke one morning and discovered a huge cavity in one of my teeth. One of the few things I feared at that time was going to the dentist. In those days it was very painful. For weeks I would begin and end each day praying the cavity would go away. As you might expect, God did not answer that prayer.

When at last I had courage enough to tell my parents, my father took me to the dentist who filled the cavity. Two weeks ago, I finally had that tooth extracted. After confessing my need to my father, the tooth was repaired and served me more than seventy years.

We Christians should pray, i.e., talk to the Father faithfully; but there is no need to beg. God knows our need.

Not long ago, a woman from Willard, MO. (Joanne Little) called me: she told me that her family has a painting of the residents and 'poor" farm that used to be in our county. The painting was made by, if she remembered correctly, the cook at the poor farm. Joanne is in her late 80s and her folks ran the farm. The painting was made on a green, canvas window blind and has since been framed and now hangs in her daughter's home. Another neat fact about Mrs. Little: her great grandfather was Andrew McQueen. She was tickled that she found an article in The Clinton Daily Democrat about him - and even a photo of he and his wife.

aged (82-year-old) German man, a 62-year-old man from Kentucky who, although considered harmless, had "caused considerable trouble" at times. There was one under charge of the county were bound to someone for a period of time until their situation could resolve or otherwise be taken care of. It was not until 1871 that the County Farm itself came into existence. The 160-acre plot was purchased by the county at the April term of the court from Frederic Crissman for \$7,200. At that time, Bob Allen was the superintendent put in charge, and Dr. J.W. Stewart was the attending physician. The farm portion was managed by a third person, D.E. Henry.

Not long after its establishment (by about 1880), it became tied to the state asylum - I suppose as a way to either help house or otherwise defer some people who might not quite fit the description for that asylum setting, but who still needed assistance or who were incapable of living on their own. It appears that, at one time, the County Farm did fill the role of taking on some of the more "violent insane" although never in great numbers (in 1883 there were five). The most populous of residents continued to be those who were destitute, disabled, or somehow mentally incapable of self-care. By 1883 there were 40 residents, but the number had been as high as 60.

It was noted that a cemetery was located somewhere on the northwest portion of the farm and in 1883 there were six buried there; that number would grow over the years; none of the graves are marked today but it is recognized they exist and we know that there are over 50.

The farm was meant to be self-sufficient and would be added to. As mentioned above, in the 1880s it also had a brick building added which contained 24 rooms, eight of which were cells. In the early 1880s, Dr. Poague looked after those inmates.

The stories of some of the folks there are quite sad, but interesting, nonetheless. Some of the 1880 census of residents/inmates included: Joseph Biggs who was infirmed and "his own received him not." A man named Jerry Caldwell who would wear a funnel-shaped paper hat and run around with it on. He, at one time, demanded money from a Windsor Bank cashier. He was considered non-violent. Several were simply listed as "crazy" or demented. In some cases, the women were listed as "a tramp." In many cases their exact ages were unknown and sometimes descriptions only included their name and, for instance, "little girl, foolish."

8/4/22

A few residents of the farm had odd enough behavior that the whole town remembered them: Fielding Means, who the town called "the wild man from Borneo" was often seen coming to and from town with a mule and water barrel from Town Creek, at one time ran his mule (and barrel) around the square yelling "the bushwhackers are coming."

Some were listed as having "consumption" and others as paupers. Paralytics were also found among the lists of residents and sometimes those who were blind. Occasionally the identifier for the person was "outcast" as was the case for Emma Williams and her baby boy; the boy died one morning and was taken away with much grief to the mother. Some of the residents were listed as "idiot." Ira Foster was one such resident: born in Germany she fell headfirst from a hayloft which affected her considerably. "Now grown to womanhood, [she] goes crooning and staring about the premises of the county farm."

A contract from June of 1937 is found among the museum archives. The contract appears to allow Mrs. Randolph act as superintendent of the County Farm to fill out the remaining term of her husband's contract in that capacity (it appears HarveRandolph passed away). She was to complete his original term to February 1938 and be paid \$60 per month salary. As the superintendent, she would continue to pay the help, manage the farm, raise the crops, and furnish and feed all who were on the farm which included the indigent poor confined to the home.

It appears the last burial on the property was in 1932; the list of those buried there is incomplete, but in all there were at least 50 known – none of the graves are marked. The brick building that housed 24 is still extant, although not visible from the road.

Henry County Health Center is hosting: The 3rd Annual Community Baby Expo

LOCATION: FIRST BAPTIST CHURCH ANNEX 209 E. JEFFERSON ST (OFF 2ND ST.) But, the Henry County Farm history is just as fascinating. Here is a little information about it:

The Henry County "Poor Farm" was located a few miles northwest of Clinton; the structure is no longer there, but there was a main residence, and three buildings behind the main residence as well as a brick building which had 24 rooms (which had been added in the late 1880s or early 1890s); that structureis still there today. Two of the out-buildings had two rooms, and one of those also had a cellar. Of the two room structures, one was for those with more severe mental health problems [An 1886 article in The Clinton Eye described it as "the crazy house."] In 1886 all the grounds and structures, including the main residence, were in excellent shape. In a tour of the facilities, the then editor of the The Clinton Eye described it as having a "beautiful lawn." We do know that in 1886, the man who ran the farm portion of the County Farm was T.C. Hemphill; the physician and superintendent was Dr. H.P. Gilkeson. At that time there were seven residents: an

young man of 21 who had epilepsy, two blind residents, one of which was African American, a 53-year-old man from Missouri who had only been there a month, and one man from Virginia who had also only been there a short time – he was 78 years old.

In 1886, the farm possessed four work mules and ten head of cattle. They had 35 head of hogs and about 15 tons of hay with 800 bushels of corn. That year they had planned on putting out 20 acres of oats. They also had about 30 acres of wheat planted.

Often the folks who lived at the farm did not meet the criteria for an asylum but had to be placed somewhere. The farm's grounds were about 160 acres total. There is an article from the 1930s about the residents at the farm being taken to town by bus to see the Christmas lights and decorations about. It was recognized in 2013 that there were several unmarked graves located on the grounds as well.

The idea that Henry County should take care of such citizens was established at the May term in 1837 by the court. The body that oversaw funding for these cases, and eventually the farm, became the Henry County Commission. The first person taken under charge of the county was a man named George Manship who was blind and homeless. In 1846, the court ordered that 13-year-old Elijah Gates be bound to blacksmith Asaph Bates, be taught the blacksmith trade and also taught to read and write. He was to be looked after until the age of 21 at which time he should be given two new suits, \$10 in currency, and a Bible. Initially, people put
