Reporter

Under new business Monday eve, Oct. 8, Lincoln Police Chief Bobby Greene reported his Department will receive a \$1,063.50 grant to purchase two bulletproof vests for the two officers who presently serve the City. The vests have to be custom fitted. In a related matter, the group agreed to give those officers time-and-a-half overtime, for hours worked over 86 in a two week pay period.

The meeting opened at 6 PM, with Alderpersons Janice Swearngin, Katie Hollis, Phil Fisher present. Alderman Glen Nelson was absent. Mayor John King presided; City Clerk Ruth Eckhoff recorded. First business conducted was to approve the evening's agenda and minutes of the September meeting, then agree to pay bills presented.

Leland Nehr, with MECO Engineering, then provided an update on the City's wastewater treatment plant upgrade, and advised the group on paperwork requirements for the City **LINCOLN on Page 4**

### Sex Offenders Registered With County

By  
Judy Kramer  
County  
Reporter

According to www.ktts.com, the Missouri Sheriff's Association has accused State Auditor Nicole Galloy of a rush to judgment in her report that raised troubling concerns about oversight of sex offenders. The Auditor's report was released last week and stated that nearly 1,300 sex offenders were unaccounted for, including hundreds who fall into the category of Tier III offenders, the worst kind. Benton County Jail Administrator, Greg Wenberg, who registers sex offenders, states that there is not currently a problem with local non-compliant sex offenders in Benton County.

"There are 72 offenders spread out in Benton County," said Wenberg. "And, 56 out of the 72 (about 80%) are Tier III offenders. But, they are accounted for and our office is 100% compliant at this time. The Missouri State Highway Patrol (MSHP) issues letters to offenders every 90 days and **SEE OFFENDER Page 4**

## HALLOWEEN

**(Continued from Page 1)** in the community, socialize and have fun. Friends and family were also invited, increasing the number of people at the event to about 90.

Party-goers were adults with intellectual and developmental disabilities from Benton, Hickory, Dallas, and Polk counties. They receive services from CHS, headquartered in Sedalia, that include helping them find resources and programs in their counties to help them have lives without limitations. Adults aged 16 and older have a total of five or six social events each year, including the Halloween party. There is a picnic/ice cream social, a winter ball where they dress up and have a catered meal, bowling games and an event in March that sports different themes.

"Everyone at the Halloween party had fun," said Chanisty Lambert, Training Coordinator and Social and Leisure Coordinator with CHS. "Food included hamburgers and hot dogs from the Shriners, and cookies from Subway. I acted as the DJ for the dancing that took place from 6 to 8:30 PM, and we had contests for dancing, mummy wrapping, and costumes. There were prizes for three types of costumes including the scariest, funniest and most original. One of the winners was dressed in a robe and a mask, and had curlers in her hair. They loved dressing up and talked about their costumes for weeks before the party. The decorations included many 'body parts,' zombie backdrops and balloons with lights in them. We decorated pumpkins and had a make-shift fortune teller on hand."

Lambert said that the parties for this particular group of individuals have always taken place in Benton County because it is where the social events began 10 years ago. This was the first year for the Warsaw Shrine Club to sponsor an event. The Warsaw Elks Lodge has sponsored previous events and the Knights of Columbus have also been involved. Lambert said that the social events for disabled adults were first planned by a previous director, and she has been doing them for over four plus years.

Other Halloween related events are happening in Benton County this month. Pumpkin Painting will take place in the Community Building on October 18, at 6 PM for those who register by October 15. Heritage Days will be this weekend, October 20 and 21, at Drake Harbor and the Truman Dam Visitor Center. ## FIREMAN

**(Continued from Page 1)** trains a lot of our guys, including me, and tells a lot of stories and jokes."

Summers had a regular job driving a truck for 33 years, and flagged race cars for 21 years in Topeka and Kansas City, Kansas, as well as in Odessa, Missouri. He said he was usually home every night, but gone on weekends.

Summers volunteered with the fire department in Munsy, Kansas for 15 years until the city took over the department. He had a cabin in Edwards, Missouri, so he also spent about 12 years helping out at the Deer Creek Fire Protection District. He retired from truck driving in 1989 after moving to Turner, Kansas, and moved to Warsaw in 1990, joining the fire department there in August of the same year.

"I remember some traumatic fires and wrecks where people were killed," recalled Summers. "But there were times when I was happy because we were able to save lives. I remember a car accident nearby several years ago where it took us an hour to cut a young lady out of her car. Her children were in the back seat and were okay, but we didn't know if she would make it. Fortunately, she is walking and doing fine today."

He said that the fire department was also able to save Cedar Grove Baptist Church when a fire broke out there. Summers was working the phones at the fire station at the time, and when the call came in he drove to the church and took water to the firefighters. He says that the department manages to have a helicopter standing by during some calls in case victims need to be airlifted for medical treatment.

"There have been plenty of calls in the past, but only three this September," said Summers. "Of course, we are also busy with training, especially the new guys. One of the things I teach is how to use the pumper."

Summers said that in his 55 years with fire departments, he has never had one of his firemen killed on duty. Summers also said that he had not been hurt badly during his fire fighting career.

"When we get a call, I pray, saying 'Lord, you have to be with us!'"

Summers has been married for 66 years to his wonderful wife, Jo Ann, and they raised five children and three grandchildren. He has a nephew in Arkansas who has been a volunteer fireman for 15 years and Summers concedes that he might have inspired his younger relative to follow in his footsteps.

## OKTOBER

**(Continued from Page 1)**

Cole, who chaired Oktoberfest. "And our contests included 'Hold Your Beer' to see who could hold a mug of cold beer the longest without getting tired, and lowering the arm holding the mug. There was also a Brat Toss, Washer Toss, and a Chicken Dance Standoff. We started off the day with a good crowd of people visiting the vendor booths. The food and beer were very good, but the weather caused the crowd to thin out during the afternoon. The lady doing the vocals with the band had a scarf around

her neck, and was wearing gloves to stay warm, and we actually shut down Oktoberfest a little early.

Oktoberfest is one of the highlights of fall in Benton County. The German October event has been hosted by the City of Cole Camp since 2001, and hundreds of participants take part every year. Prairie Day is celebrated in conjunction with Oktoberfest, but with an agenda of its own, and many of its activities taking place at Dr. Wayne Morton's prairie, located near Cole Camp.

"Out committee will take a break from planning next year's Oktoberfest for a little while, although we have already booked next year's band," said Cole. "We are now planning for Cole Camp's Christbaumfest Craft Show, November 17, and Christkindlmarket on the first Friday in December."

**(Continued from Page 1)**

to obtain a related USDA loan. An old business item about unlicensed dogs running loose in the City, and another item, relating to the property at 108 E. Main were discussed, but no action was taken. The group was also informed that a \$3000 grant for police radios will be received from the MO Highway and Transportation Commission Safer Roads Program.

Police Chief Greene reported a need for additional Police Officers, and Public Works Director Dustin Koll said his Department has been busy with general maintenance. He added the Dept. has hooked up a bulk water system, and has performed additional work for the recent fly-in and rock swap. He concluded that Higgins Asphalt has finished its road repair work in the City. City Clerk Eckhoff reported that 15 UTV licenses have been issued to date, adding that the City broke even, in revenues vs. expenses, at the recent fly-in.

Under new business, Lynette Stokes provided an update on tourism matters, adding information that MO Division of Tourism representatives will be in Lincoln, Cole Camp and Warsaw on Oct. 20, to highlight those cities. In late session, Mayor King stated he had recently attended a meeting in Butler, where broad band issues were discussed.

The session closed at 7:40 PM. These meetings are usually held on 2nd Monday eves. Visitors are welcome, but please check with the City office (660-547-2718) for updated information.

## OFFENDER

**(Continued from Page 1)**

these people are required to return the letters to the Sheriff's Office so I can scan them into the system. If a letter is not returned, then a check is made to see if the offender has moved without notice. A courtesy call is made first, and if there is no response, then a warrant is issued for failure to register. Sometimes a letter is not returned because of a mishap, and not failure to register."

Wenberg said that MSHP maintains a data base on sex offenders who are responsible for following rules and restrictions on the MSHP website. One of the restrictions for offenders is that they cannot live or be within 1,000 feet of a public or private school, or a day care center. MSHP also maintains a map with locations of sex offenders in the state. Wenberg sometimes gets calls from offenders who want to move to the area and he looks at the map to guide them as to the location of schools and day care centers. The map can be accessed online at <http://www.msdp.dps.mo.gov>.

"There are sometimes complaints from residents when they find out that a sex offender lives in their neighborhood," said Wenberg. "But I remind the residents that the offender has certain rights like every

other citizen."

Wenberg said that there have been times when an offender just didn't want to register, and that an offender has been found at a school bus stop. He said that there are deputies that can be sent out if there is a concern about any of the offenders, but he advised that parents and guardians always be aware of their surroundings and keep track of their children, especially at school bus stops.

The Missouri Sheriffs Association (MSA) executive director, Kevin Merritt, was reported by [www.ktts.com](http://www.ktts.com), as stating that some offenders cited in the state Auditor's Report as being unaccounted for, were actually in prison, had died, moved out of state, or are under investigation for non-compliance. The Auditor's office responded by stating that some sheriffs must not have been making updated information to the sex registry. The MSA reported that it had contacted all sheriffs in Missouri who, in turn, stated that they were not contacted by the Auditor or her staff to discuss the issue of registration of sex offenders. [www.ktts.com](http://www.ktts.com) also reported that other counties have information that refutes the Auditor's false claim that these offenders are simply hiding in Missouri without a trace.

Other news reports about the Auditor's report can be found at [www.maryville-dailyforum.com](http://www.maryville-dailyforum.com), and <http://www.krcu.org/post/state-auditor>.

# HERITAGE OF OUR ANCESTORS

## For The Love Of The Game!

Written By  
Johnie J. Logue

**Annual Baseball Rant**  
Needless to say, the MLB playoffs are off and running. I am writing this on Thursday so things will be going strong by the time you read this.

First, lets review our two Missouri teams. The K.C. Royals lost 104 games. Yea, fans blame the free agent market for that, having lost several key players over the off season. That doesn't fly with me because that is what your minor league system is for. The Cardinals brought up their Memphis farm team pitching staff and made a run at it.

Dexter Fowler getting hurt was the best thing that ever happened this year. I was totally against signing him and certainly against the no-trade contract. We owe him \$50 million and may be stuck with the guy for awhile. Personally, I would put him and Bud Norris in a package deal for the worst player in AAA ball.

Apparently, they also made a bad deal in the Luke Voit trade with the N.Y Yankees. Not to mention eating 14 million in the Greg Holland disaster. He should have spent a month or more in the minors.

Why is it that the ordinary guy on the street can see these things and the front office millionaires can't? This is totally beyond my personal understanding.

The Royals drafted every pitcher they could get their hands on so they know their biggest need. I take my hat off to them for that alone.

The Cardinals front office personnel on the other hand, are lost. They have some tough decisions to make this off season. That have Adam Wainwright and Matt Carpenter to deal with. Wainwright might retire and Carpenter needs a position that he can actually field. I don't think they will never get a closer until they get someone in the organization who knows what a closer really is suppose to do. Where is Bruce Sutter when you need him?

Also, Jose Oquendo has to be worst third base coach in the history of the game.

However, there must be someone in their scouting system that knows baseball because of all of the good young players that are coming up.

For the money, I would take Tyler O'Neill over Bryce Harper any day of the week. He is a great player but not worth nearly what he will demand. So I hope the Cardinals are not that foolish.

The Royals obviously need pitching and I don't know what the Cardinals need beside a closer. I don't like the way MLB is going with the pitch count. We are seeing playoff games with just relievers. Who ever thought that would happen? Where is Bob Gibson when you need him?

Hey, I got to go find a game to watch.

**THERE WAS NO ONE IN SIGHT AS WARSAW FRESHMAN ALYSSA ALCANTARA** crossed the finish line last Tuesday evening in Buffalo, MO. Alcantara won the first ever Ozark Mountain Conference Cross Country Championship.

# Warsaw Freshman Wins Conference Championship

By Johnie J. Logue  
Enterprise Staff

Warsaw's Freshman Alyssa Alcantara became the first ever Cross Country Ozark Mountain Conference (OMC) Champion last Tuesday in Buffalo. Alcantara outran seniors, juniors, sophomores and other freshmen from El Dorado Springs, Sherwood, Butler, Buffalo, and Skyline, 23 runners in all, to claim the title in Warsaw's new conference. Alyssa is the daughter of Ray and Shannon Alcantara. She was very successful as an eighth grader but capturing

the conference championship in her first try is quite an achievement.

An excited Head Coach Ehren Banfield commented on his talented freshman, "Alyssa ran away from the field by winning by a wide margin of slightly over a full minute. Amazing considering Alyssa is a freshman. She has been pretty much in training since last year's XC season. Her dedication shows in her 21:21.39 time."

Coach Banfield explained about the better times, "The course is very flat. Which is why times were very

fast. Athletes did not run as fast as previous week was because the weather conditions were not as cool. It was a lot muggier with windy conditions."

Other racers fared well also. Trey Palmer ran a very strong race and placed fourth with a time of 18:38.21. Palmer will be putting up three on the basketball court in a couple of weeks, but before that happens, he has some unfinished business in cross country.

Maleek Porter placed 9th with a time of 18:55.22. Both received medals at the conference meet (Top

10). Eighth grader George Montez placed second with a time of 8:57.19

Coach Banfield commented, "Alan Landsberg ran a very good race indeed. Alan set a personal record for himself with a time of 37:24.49. Alan set this PR by over two and a half minutes. He did this in pouring rain that ended the meet. Most of the team cheered Alan along even though they were getting poured on by the heavy rain to cheer him across the finish line. Very cool ending."

We wish them the best as the season continues.

# Father Tolton Too Much For Wildcats

**ZACH CHAPMAN RUNS BEHIND KIEON DAVIS** on a kickoff into a pack of Father Tolton's would-be-tacklers. Warsaw lost 47-8 to fall to 2-6 on the season and will play Skyline on the road this Friday. Tune in to BCE TV with Barry Edwards. Pre-game is at 6:30.

By Johnie J. Logue  
Enterprise Staff

Whether it was the two hour drive or the somewhat muddy field, the Warsaw

Wildcats had a sub-par performance in the 47-8 loss on Friday night to Father Tolton. Given, the 1-6 Trailblazers came into the contest

having played a pretty good schedule of higher class teams and they were big and had a pretty good quarterback. They had ten players 6'2 or better.

Father Tolton had lost the week before in overtime to St. Mary's 44-42 when they failed on their two point conversion.

They have a beautiful school, a player in the NBA in Michael Porter Jr. and colorful uniforms. Did we mention they had a pretty good quarterback?

Robert Hunter, a 6'5 senior, would connect for six passing touchdowns on the night. They would also run behind the 6'7, 300 pound, Junior Lineman, Monroe Mills, all night long, even on the short side of the field.

Hunter would hit Jared Thompson at the 8:30 mark on the opening drive and with the kick it was 7-0. Dalton Nickles would fumble the kickoff and Zach Chapman would save a touchdown with an interception,

his third of the season, at the 11 yard line.

Father Tolton would score again and Warsaw would drive to the 11 yard line but failed to score. From there it was all downhill as it was 33-0 at halftime.

Warsaw would prevent the shutout when Eli Hawkins plowed his way to the two yard line with a 33 yard run in the fourth quarter of play. Kieon Davis would race in for the TD and would also score the PAT for the 47-8 final score.

Coach Boyer commented, "Father Tolton was a very good team. There were a few key plays at the beginning of the game that really shifted the momentum their way. I was proud of how our kids stepped up at different positions. Especially the ones filling in for our injuries."

Father Tolton would move to 2-6 on Senior Night and the Wildcats fell to the same record at 2-6.

Davis was 19-50 rushing

and Chapman was 2-20. Matt Couzens was 3-73 passing. Freshman Brady Slavens finished out most of the second half at quarterback. Complete stats were unavailable.

Warsaw will play Skyline on the road this Friday. The Tigers threw an interception in the closing seconds on the goal line as they lost to El Dorado 28-24 last week.

As always, you can watch the game on BCE TV with Barry Edwards. Pre-game is at 6:30.

# Tough Times For Volley Cats

By Johnie J. Logue  
Enterprise Staff

You could sum up the Warsaw volleyball season with the old Beatles song, "Its Been a Hard Day's Night." The girls have played hard but just haven't been able to get the victories they have so earnestly fought for and deserved.

They traveled to Sherwood last Tuesday for some red hot volley action. Head Coach Shelly Hodges commented, "Another tough night for the Lady Wildcats. The JV played a tough game losing by scores 20-25 and 23-25."

Varsity played more energetic and had moments of good play but missed too many serves losing to Sherwood on their Senior night where they had six seniors, by scores of 8-25 and 14-25."

On Monday, they lost at home to El Dorado Springs. Coach Hodges said, "The Junior Varsity played a hard fought game losing in three to El Dorado Springs, by scores of 17-2, 25-16, and 14-16."

The Varsity lost to El Dorado Springs by scores of 4-25 and 12-25

# Lady Cats Win District

By Johnie J. Logue  
Enterprise Staff

The Warsaw Lady Cats are on a mission to reach the Final Four and they took a couple of steps on that journey last Thursday. The road to any championship game is never easy, but the Lady Cats would jump out early with a run in the second, three in the third and one in the fifth and held on for the 5-1 victory over a pretty good Lamar team.

Kya Schepker would pitch another outstanding game, giving up one run on six hits with five strikeouts.

She threw 43 strikes out of 73 pitches.

In the fifth, Rayni Simons would blast a solo home run shot to right field to make it 5-0.

Emma Payne would score their first run as the courtesy runner for catcher Reagan Shelby on a ground out by Ambri Simons. Shelby had singled to left. Payne would advance on an error and go to third on a ground out.

The third started on a single by Payge Adair. With one out, Taylor Howe would single on a bunt and Kiersten Grobe, who had hit into a fielder's choice, would advance to second. Rayni Simons would rip a single up the middle to score Howe. Grobe would later score. Then after Aubrie McRoberts reached on an error, there was a double steal by McRoberts and Payne. Schepker would help out the cause with a bunt that scored McRoberts.

R. Simons went 2-3 with two ribbies. Adair went 2-3. Schepker, McRoberts and Payne all had a stolen base.

In the earlier playoff game of the day, Warsaw would beat El Dorado Springs 15-0 behind a masterful no-hit pitching performance by Payge Adair. She struck out four in the four inning affair. Warsaw scored in the first, five in the second, six in the third and three in the fourth. The big shot of the game was a second inning two run line drive blast to right field by Aubrie McRoberts. McRoberts would go 2-4 with four ribbies and two runs scored. Taylor Howe, who at times has been nothing less than a hitting machine, went 3-4 with three runs scored and two ribbies. Rayni Simons had other big game going 2-3, three runs scored and four ribbies. Reagan Shelby, who has done an outstanding job behind the plate catching foul balls, calling pitches, and advising Coach Larson on the speed of pitches, went 2-3 with three ribbies.

Kylee Fajen went 2-2 with two runs scored and one ribbie. Adair also went 1-3 with a ribbie. Kiersten Grobe was 1-2 with a nice ribbie. Adair, Schepker, R. Simons, and Howe all had stolen bases.

Warsaw will host Willow Springs here in Warsaw on Wednesday at 5:00. There will be an admission charge of seven dollars at the gate. Seniors and kids under five, as always, get in free. Game starts at 5:00

### How Should You Respond to Record-Breaking Bull Market?

The investment world recently observed a milestone: the longest bull market in history. But what does this mean to you, as an individual investor?

For one thing, it suggests that patience and perseverance can pay off. From October 2007 to March 2009 – just 17 months – the S&P 500 stock market index fell more than 56 percent. That's a big drop, of course, but what if you had told yourself that "enough is enough" and you decided to sell? Consider this: The S&P 500 has now risen about 320 percent since its low point on March 9, 2009. So, if you had stayed invested during these last 9-1/2 years, your portfolio might have

achieved impressive results.

How long will this bull market last? No one can say for sure, and it's usually something we don't anticipate that ends a bull market. (In fact, there's no one agreed-upon definition of a "bull market," although many financial experts define it as a period of rising stock prices without a drop of at least 20 percent.) Right now, the investment environment still looks pretty good: U.S. economic growth is strong, corporate earnings are healthy and consumers are spending. As always, though, potential concerns lurk, including the effects of a looming trade war with China.

Regardless of the prospects for this bull market, here are some questions to ask yourself:

• Am I still on track toward meeting my goals? Your investments' performance may not match that of the S&P 500 or the Dow Jones Industrial Average – and that's not a problem. These indices only track the returns of U.S. stocks, but to reach your goals, such as a comfortable retirement, you will likely need a diversified array of investments: U.S. stocks, international stocks, bonds, government securities and so on. Rather than compare your investment results to those of a single market index, you should measure your progress by your own "yardstick," based on a variety of factors, including your portfolio's performance but also taking into account your age, retirement goals, risk tolerance and family situation. A financial professional can help you create a personalized measurement tool.

• Do I need to rebalance? Over time, your investment portfolio can become over-concentrated in some areas. For example, you might have wanted a certain percentage of your portfolio to be held in stocks, but during a long bull market, the value of U.S. stocks may have risen so much that they now take up more space than you had intended, possibly subjecting you to a higher level of risk. Consequently, you may need to "rebalance" your

portfolio by adjusting your investment mix.

• Am I maintaining a long-term perspective? The 9-1/2 years (and counting) run of the bull market should remind you that successful investing is not a "get-rich-quick" endeavor, but rather a gradual process requiring you to focus on the long term. Even during this lengthy run-up, we've seen "corrections" – short-term declines of 10 percent or more. But if you can stick with your long-term investment strategies, you will be less tempted to over-react to the inevitable bumps along the road.

The record bull market makes for some interesting headlines for a few days – but in the long run, it's what you do, year in and year out, that will help you write your own story.

## Have I Got A Line For You!

By James M. White, Publisher

Here's something to be grateful for. The fall colors are expected to peak in a few weeks and researchers say they'll be vibrant. The Missouri Department of Conservation tracks the fall colors each year as they begin in the northern part of the state and progress down south. Sassafras, sumac, and Virginia creeper are some of the earliest to change. Black gum and bittersweet oaks will stand their ground, maintaining forest green and indicating continued photosynthesis. Maple, ash, oak, and hickory trees will be the most colorful. I just thought you'd like to know that.

Speaking of fall, Heritage Days is this weekend, Halloween is around the corner, and soon there will be a lot of turkeys thawing around the country for Thanksgiving. I wonder if many people still make dressing from scratch? That's an interesting old expression, "from scratch," isn't it? It just popped in my mind that people, long ago, used to say "Old Scratch" when they meant the Devil. I'll look that up one up tonight to find out why.

There's starting to be quite a bit of discussion in many states about putting a Right To Die Law on the books. Oregon is one of several states that have one. Four years ago it was passed in New Jersey, but the Governor vetoed it. Hawaii's Death With Dignity Act will take effect on January 1, 2019. Should the government intervene to help folks with debilitating or terminal diseases end their lives? I've read several stories about people heading out to Oregon to end their lives, saying they don't want to suffer and don't want their family to go through the

ordeal with them. What's going to happen if this type of law is enacted across the country? Will it pave the way for the government to step in and tell us when our time is up? What happens to the value of human life with regard to this law? I'd like to know, would you?

The morning sweeps onward. It's 11:30 AM and I have to ride up to Cole Camp with Kim Keeton. Being in the car with her is never dull. She has a habit of leaving her right blinker on. I asked, years ago, why she did this. Kim replied, "Because I never know when I might want to turn, that's why!"

Fall is definitely here, the time of year when casseroles become king. As soon as it gets chilly, warming and comforting food starts to take center stage. Fall is often an extremely busy time, especially for those with school age children. For those of us with mono who fall asleep when looking at a recipe, an easy casserole is a life saver.

Several years ago the Bubble-up casserole craze was flooding the recipe exchanges. If you've never tried a Bubble-up casserole, they make a meal easy as it is delicious. Simply combine cut-up biscuits with the ingredients of your choice and bake. In no time at all you'll have a wonderful bubble up-casserole. Hundreds of variations are on the internet, from main dishes to desserts.

The basic combination principle is: canned refrigerated biscuits cut into quarters.

Savory uses cooked protein, sauce of choice, ranging from canned soup to jar of gravy, sweet uses canned fruits, pie filling, etc. You need a shallow baking dish, usually 9x12 so the biscuits "bubble up" and get brown. I once used a deep dish and the result was more like a doughy dumpling in places.

The following are two of my chicken favorites.

**Bubble-Up Ranch Chicken Casserole**

2 cups cooked chopped chicken

1 (10.75-oz) can Cream of Chicken Soup

8-oz sour cream

1 cup shredded cheddar cheese

1-1/2 Tbsp Ranch dressing mix, (dry, not the dressing)

1/4 cup cooked, chopped bacon

1 16 oz. can refrigerated biscuits

1. Preheat oven to 350° F. Lightly spray a 9x13-inch pan with cooking spray. Set aside.

2. Combine chicken, soup, sour cream, cheese, Ranch mix, and bacon. Cut each biscuit into 4 pieces. Toss with chicken mixture.

3. Pour chicken mixture into prepared pan. Bake for 25-30 minutes, until bubbly and biscuits are golden brown.

**Bubble-Up Mexican Casserole**

Preheat oven to 350 degrees F. Spray a 9x13 baking dish with non-stick cooking spray.

2 (or more) cups cooked chicken, chopped

16 oz can refrigerator

Dear Editor,

In the past 20 months, the U.S. has seen 4 million new jobs, more than 3.5 million since Trump took office. 400k manufacturing jobs and 100k in new support products in transportation of oil and natural gas. 19 hostages in foreign countries have been brought home without a ransom.

3+% growth rate in his first year and 4.2% growth rate in the 2nd quarter of this year. Unemployment lowest in 50 years. Jobless claims lowest in decades in women, youth, African-Americans, Hispanic-Americans, Veterans unemployment lowest in 20 years, 3.9 million off of food stamps, ANWAR opened up. Small businesses opening at the highest in years, home ownership with Hispanics highest in decades, poverty levels lower for African-Am and Hispanic-Am. Manufacturing confidence at all-time highs. The steel and coal industries are bouncing back. Tax cuts made to become permanent.

New trade deals and renegotiation of NAFTA now USMCA. Paris Climate Accord cancelled thank God! It was taking away from the U.S., in jobs and manufacturing just like NAFTA did. It was NOT going to control climate change. Climate change and global warming is by God and you can't control Him. Any trade deal previously done is being negotiated in our best interest NOT foreign countries. Our military is being increased for National Security. The VA Accountability Act is in place, Right to Try is available for individuals with life threatening illnesses.

In 20 months, 289 accomplishments have been done and 81 major Trump accomplishments. EPA regulations that aren't necessary have been removed. People have been brainwashed into believing things are going to happen so you can be controlled.

President Trump is NOT a politician, but a businessman whose main concern is AMERICA FIRST! He's made promises and kept all of them, and he's not done.

You're never told everything he's done by the MSM, but you can do

and Rotel, mix and toss with quartered biscuits. Spread evenly in the baking dish. Bake in middle rack of oven for 25 minutes or until the biscuits are cooked through. When ready, remove from oven, evenly top with cheese and place back in oven until cheese has melted and begins to

your own research and look up Washington Review. It has a complete list of what he's done. WE need to continue to help him KEEP AMERICA GREAT. WE NEED ANOTHER RED WAVE NOV 6TH!!

Dear Editor,  
Amendment 1 to clean up Missouri politics

Over 300,000 Missourians signed a petition to demand a vote on Amendment 1, and we all have that opportunity on Tuesday, November 6. Amendment 1 is a bipartisan effort to clean up the corruption, secrecy and dark money contributions that hold sway in Missouri. Amendment 1 will #1 Eliminate almost all lobbyist gifts in the general assembly, #2 Will require that legislative records be open to the public, #3 Lower campaign contribution limits for state legislative candidates, #4 Require politicians to wait 2 years before becoming a lobbyist, #5 Ensure that legislative representative maps are drawn in a bipartisan and fair manner. Former Senator John Danforth stated: "Amendment 1 will increase integrity, transparency, and accountability in state government." A number of Republicans, Democrats, Independents, and newspaper editorial boards across Missouri have publicly endorsed Amendment 1. For more information go to www.cleanmissouri.org

The people who are opposing Amendment 1 must be either buying or selling political influence. Why else would you be against an open and representative state government?

Thank you, Mike Blyth

Dear Editor and Readers,

On the November 6th ballot, the main part of Proposition B states: Do you want to amend Missouri law to increase the state minimum wage to \$8.60 per hour with 85 cents per hour increase each year until 2023, when the state minimum wage would be \$12.00 per hour?

There are several reasons to vote YES on this proposition. This affects all of us, not just lower wage earners. A person can't live on the Missouri minimum wage of \$7.85 per hour. Since they can't, higher wage earners are footing the bill for the amount of assistance minimum wage earners need. Bernie Sanders, Senator from Vermont, expressed it, "The American people are tired

of having to subsidize profitable corporations who pay their workers wages that are so low that many of them are forced to go on food stamps, Medicaid, subsidized housing and other federal programs."

This last week Jeff Bezos of Amazon announced that all workers, full or part time, will be paid \$15 an hour starting November 1st. Mr. Bezos is now urging the federal government to raise minimum wages to much higher than \$7.25 an hour. Presently, Target, some Walt Disney theme parks, Charter Communications, Unilever (a large company that owns Ben & Jerry's ice-cream), Costco, and Apple are working on raising minimum wage to at least \$15 an hour.

In Missouri, the \$12 per hour wage increase by 2023 is at least a start in the right direction. By slowly increasing the wage over several years, businesses can adjust slowly to the increases while experiencing the benefits of increased consumer spending, cost savings from fewer employee turnovers, increased productivity, and happier customers.

I've heard people protest that prices of everything will go up. But that's not what the experts are finding out. People who already have high wages usually save their pay increase, but lower wage earners spend it. As they are paid more, they spend more and stores and restaurants have increased business. All of this generates needed taxes for schools, police, government and many other tax supported jobs. It's been projected that Prop B will result in \$1 billion in consumer buying power across the state involving thousands of workers.

Mary Faucett, owner of Bambino's Café in Springfield said, "When wages are raised at the bottom, money goes right back into businesses and the large community. When all businesses, including the large chains, have to pay a decent wage, it will level the playing field for us little guys and help us grow our business."

Help hard working people become more self reliant, meet their basic needs, and take care of their families. Vote YES on Proposition B.

**Agriculture Leases**

Fall is generally a time when farmers and ranchers begin thinking about next year's business decisions. During the fall, farmland and pasture leases are typically agreed to for the following year. We generally field several questions on this topic so a discussion on some resources to help with the decision making process is in order.

One of the most common questions is "What does crop or pasture land rent for?" Unfortunately, there is no short answer to this question, other than the standard reply of "It depends." Pasture leases can be extremely variable, depending on what different parties bring to the table. If the landlord basically provides a place for animals to roam around during the summer, rental rate should be relatively low. The more the landlord provides, such as fertilizer, working facilities, high quality pasture, high quality fencing, multiple water sources, management or labor assistance, etc., the higher the rental rate should be.

Dr. Ray Massey, Extension Professor and agriculture economist at the University of Missouri, recently completed a statewide survey of rental rates. The information is contained in MU Guide G427 entitled "2018 Cash Rental Rates in Missouri". Rental rates for cropland as well as pastureland are reported in this publication.

Dr. Massey has also recently completed the 2018 Missouri Farm Land Values Opinion Survey. Survey respondents included ag lenders, rural appraisers, and farmers.

A third source of information that may be helpful in developing ag leases is the "MU Custom Rate Survey", MU Guide G302. The most recent survey was completed in 2016.

These publications can be accessed on the following MU websites: crops.missouri.edu, beef.missouri.edu, or agebb.missouri.edu.

Once some idea of prices is obtained, the next step is to get the lease written down. AgLease101.org is a website that was developed by the North Central Farm Management Extension Committee and contains information on lease agreements as well as sample lease forms. Those in attendance with the Commission included: County Clerk Susan Porterfield, Treasurer Rick Renno Recorder Beverly Burnett, Collector Donna Hart, Coroner Weston Miller, E-911 Director Susan Canfield, Sheriff Eric Knox, Emergency Management Director Mark Richerson, Prosecuting Attorney Deputy Kim Brewster and Captain Jeff Canfield.

Sheriff Eric Knox spoke to the Commission concerning the purchase of two vehicles. He noted that these vehicles would normally be purchased in the 2019 calendar year; however, due to style changes in vehicles, purchase could be delayed

until late next year. This purchase is necessary for operation of the department and cannot be avoided. It was also noted that purchase of these vehicles now could result in a cost savings to the county. Knox will obtain further information and report findings to the Commission.

Joe and Karen DeAngelo have asked that all prayer warriors remember their grandson Duncan and his parents David and Maria. Duncan has a brain tumor and has been receiving chemotherapy for the past year. The Dr's will be doing a brain tumor biopsy the 25 of this month as the tumor has not responded satisfactorily to the year of chemotherapy. So let us all be in prayer for this little boy and his parents that they will find real answers to take care of this tumor. Also keep remembering Ronnie Jackman, as you pray, as well as David First, Leland Brown, Br. and Sis. Ullum, Mary Scarbrough, and W.Y. Garrison.

The community came together as usual to provide a meal for the family of Br. Wayne Doll, after his funeral on Friday October 5th. Br. Doll's and Hazel's children came together after the funeral to the Fristoe community building where the community had provided a meal for them to enjoy while talking together. There was an abundance of food and the providers insisted the family take as much as they could home with them. Br. Doll and Hazel's family send many thanks to each and every person that had worked and helped provide for the meal!

## Alice N. VanBuren

Alice N. Van Buren slipped peacefully into eternity on October 10, 2018, at the age of 93. She had been

residing at the Lakeside Suites since early 2017 in Lincoln, Missouri, and spent the last several days of her life in the nursing home there surrounded by loving family and friends.

Alice was born February 24, 1925 in Tulsa, Oklahoma, the daughter of William Robert and Helen Lang Richardson. She was the eldest of 5 siblings. Most of her childhood was spent in Goodman, Missouri, where she lived until attending college at the University of Missouri in Columbia.

On April 6, 1948, Alice was married to Jacob Howard Van Buren in Goodman, Missouri. After living in Illinois for a short time, the young family moved to Warsaw, Missouri where Howard started in the cattle business and where they remained for many years, raising their four beautiful daughters. Due to the untimely death of her own mom, Alice and Howard also finished raising her four younger siblings.

Although Warsaw was home to Alice most of her life, she also had a couple of adventures, living in California for 5 years, where she fell in love with the ocean and spent lots of time with her grandchildren who lived there. She also had the chance to live in Elmira New York in 1991, which was an unforgettable experience. After the death of her beloved husband, Howard, in 2001, Alice continued to live in their Warsaw home for 8 more years, volunteering at the Warm House and serving meals for the Lion's Club at the local Methodist Church each week. She was a fantastic cook, and exceptionally talented at nurturing the beautiful plants and flowers that surrounded her wherever she lived. All who entered her home felt welcomed there. In 2009, Alice was able to move in with her daughter, Sue, in Fulton, where she lived for several years. There she enjoyed peaceful walks in

picturesque surroundings, painting to her hearts content, and spending precious time with family that lived nearby - including two of her great grandsons. Alice also treasured time with dear friends and found joy serving others in any way she could.

Alice's life is chiefly defined by the loving devotion she showed to her husband, children, grandchildren and great-grandchildren. She spent years patiently caring for her husband through many health troubles and hospital stays. She never forgot a birthday, or missed the chance to be part of the important events in the lives of her family members, even if it meant traveling long distances. Her artistic talent flourished in her later years when she had more leisure time, and she created a unique painting for each of her 17 great-grandchildren as they were born. It is difficult to express how much her constant encouragement and wisdom will be missed. She cherished each day as a blessing and often reminded her loved ones that "life is a gift!"

Alice is preceded in death by her husband, Jacob Howard Van Buren, daughter, Ruth Helen Van Buren Stevens, grandson, Vincent Allen Wittmeyer and brothers David Richardson and John Richardson. She is survived by daughters, Sue Ann (Kenny) Jackson of Fulton, Missouri; Karen (Bill) Kahler of Warsaw, Missouri and Sharon Van Buren of Boone, North Carolina; sisters, Nancy Ping and Mary Foley, nine adoring grandchildren and 17 great-grandchildren.

A celebration of life will be held in Alice's honor at 11:00 a.m. on October 22, 2018 at The Church of Living Water in Warsaw, Missouri (located at 31667 Hwy 83). A private graveside service will later be held for family at the Missouri Veterans Cemetery in Higginsville, Missouri.

### Barclay Tree Service

**Let Barclay Tree Service Help You Clean Up**  
Do you have a dead tree that you need removed from your property? Call Barclay Tree Service for all your tree trimming and removal needs.

William Barclay, owner of Barclay Tree Service, has been in the tree trimming and removal busi-

ness for nine years but just recently started his own business.

Barclay can climb any tree to trim back limbs that may be hitting your house or barn as well as taking down any trees that may be in your way. Barclay will travel all

over Benton County to take a look at your tree problem and give a free estimate on the cost of tree trimming and removal.

"Every tree is different, so the cost will be different," said Barclay.

Barclay Tree Service can take down a tree and just leave it or they can cut it down and then cut it into firewood.

"We can cut your tree into firewood and stack it for you or we can haul it away," Barclay said. "It all depends on what the

customer wants."

Barclay Tree Service is fully insured. William, his wife Jessica, and his father-in-law, Bill Allen, all work together to make sure you are satisfied with their work on your property.

Since William also works another job in the city, he spends Friday, Saturday and Sunday working on his tree removal and trimming business here in Benton County.

Call Barclay Tree Service today to get an esti-

mate on your tree problem. Call 660-723-9860 or 660-723-9861 to set up a time.
