# County Commission to Vote on Zoning Change For Resort, Substance-Abuse Treatment Center

HUNTINGDON — Carroll County commissioners convene Monday, September 12, 6:30 p.m. to vote on a change to the planning regulations in the area of the Carroll County 1000-Acre Lake. The proposed changes to zoning would allow a proposed development that includes an airport, retail center, RV park, music venue and substance-abuse treatment center.

On July 20, the Carroll County Lake Planning Commission recommended changes to the lake-area zoning. Those changes head to the Carroll County Commission on September 12. This is the first meeting of the term of commissioners, which has 11 new commissioners of 21 total.

While commissioners will not vote on the development itself, the proposed change in zoning would be one of many steps required to allow such a development.

A proposal to develop property located at 650 Humphrey Road. The property is partially located on Highway 70 and partially located on Humphrey Road.

The property is 210.64 acres in size and it is partially zoned M-RC (Mixed Residential Commercial), but mostly zoned L-2 (Lake Low-Medium Density Residential).

There are many facets to this proposal.

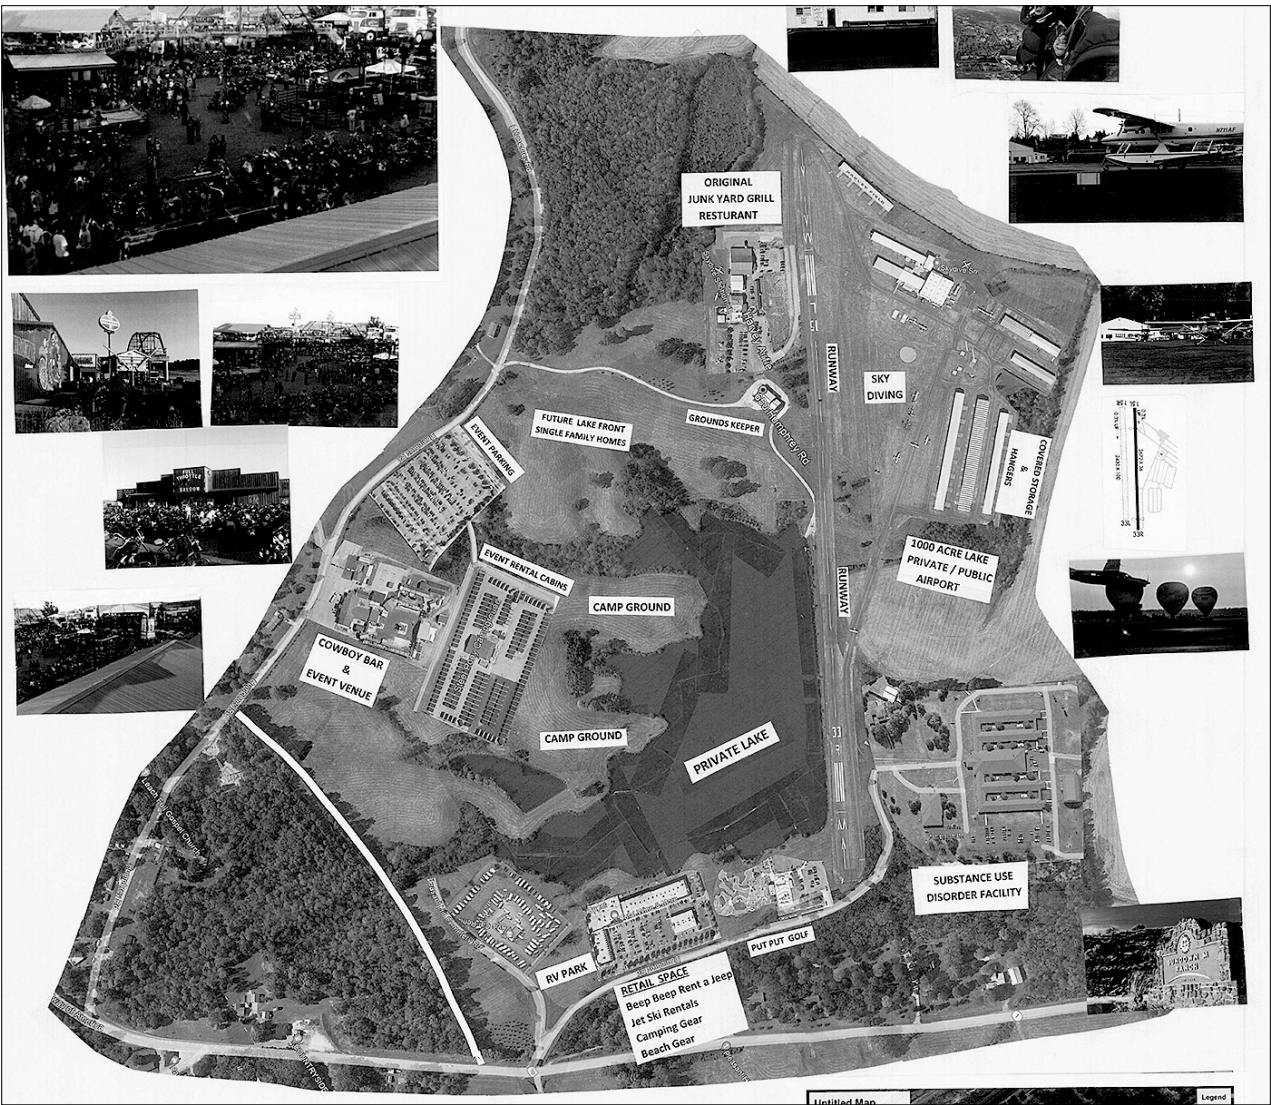

Subdivision of the property into individual parcels. The site plan shows the 210.64 acres being divided into seven parcels, which range in size from 9.87 acres to 82.50 acres. In many cases lots, being split which are larger than five acres in size are exempt from the subdivision regulations by state law. In this case, the exemption does not apply because there is a necessity for at least one new road to be constructed in order to prevent the creation of landlocked properties.

A preliminary land plat, construction drawings, and final plat are required to be submitted for this proposed subdivision of property. The preliminary and final plats must be created by a registered land surveyor, while the construction drawings must be created by a licensed engineer.

Proposal to allow “substance use disorder facility” on Parcel 7.

This proposed parcel is 17.38 acres in size and it is zoned L-2. The property is shown to abut the proposed new road which would connect to highway 70. The property abuts residential uses (to the south) which would need to be given consideration (during the site plan process) given their close proximity to the subject property.

A substance use disorder facility is categorized as “social service” use, per the Standard Industrial Code (the codification manual on which

zoning uses are based). This type of use is not allowed in a L-2 District. In order for this type of use to be allowed, a text amendment would have to occur and approved by the County Commission.

Analysis. An airport operated by a governmental entity would be permitted as a “governmental use.” However, there is no allowance for a private airport in the L-2 Provisions. Again, an amendment to the text would be needed in order to add this type of use and approved by the County Commission.

Proposed RV park on Parcel 5, which is 10.62 acres in size. The proposed parcel is located on Highway 70 and it appears to be partially zoned M-RC and partially zoned L-2, with the RV park being wholly located on the L-2 part of the property.

Analysis. RV parks are allowed in L-2 Districts upon several criteria being met. A site plan must be submitted for approval (by the BZA) which details the layout of the proposed park and illustrates the required criteria being met. It appears that there would be ample space to locate a RV park at this location, as the minimum lot size for such a use has been met. However, it is not possible to fully know the viability of the proposed use on the subject property without the required site plan being submitted.

Basically, the use would

be allowed upon approval of the BZA, but none of the current prescribed criteria (minimum lot size, location on collector or arterial road, minimum size of RV spaces, paved internal drive requirements, etc.) would be required.

Recommendation. The staff planner recommends that either the required detailed site plan be submitted for the proposed RV park (or that the developer waits to find out if the reduced requirements for RV parks in L-2 districts are adopted as part of the proposed L-1A, L-2, and L-3 zoning amendments).

Proposed Retail Space and Entertainment Venue on Parcel 6.

A retail space and entertainment venue is being proposed on Parcel 6. Parcel 6 is 9.87 acres in size and is zoned L-2. The property would be served by the proposed new road, to be constructed as part of the subdivision improvements.

Analysis. Retail use is allowed in L-2 Districts as a Use on Appeal. However, such retail uses are not allowed to be within 500 feet of schools, churches and residences. It appears that multiple residences on Highway 70 would be located within 500 feet of the proposed retail space. There are additional buffering regulations which require that retail spaces be even farther away from churches,

schools, and residences if they serve beer (1,000 feet) or liquor (2,000 feet). The only apparent ways to allow such a proposed retail use would either be with another text amendment by the Zoning Commission and approved by the County Commission.

The proposed entertainment venue would be allowed as a Use on Appeal (as a recreational use) with no specified criteria listed.

Proposed restaurant and (future development) on Parcel 3 Background. Parcel 3 is 33.94 acres in size and it is zoned L-2. It is located on Humphrey Road. Restaurants are allowed in L-2 districts upon several criteria being met.

One of the criteria required for a restaurant located in a L-2 district is that it be located on a collector or arterial status road.

Humphrey Road is not classified as a collector or arterial status road. With that said, it should be noted that the buffering requirement (for a restaurant serving beer) of 1,000 feet from a church, school, or residence would be met, as the proposed restaurant would be approximately 1,300 feet from the nearest residence. It would not meet the 2000 feet buffering requirement for a restaurant serving liquor.

The contracted staff planner, hired by the county, recommends against a restaurant being located on

a non-collector/arterial road in a L-2 District.

An entertainment venue/bar is slated for Parcel 4 is 15.94 acres in size and it is located on Humphrey Road. The property is zoned L-2.

Analysis. Like parcel 3, this property fronts on Humphrey Road which is not designated as a collector or arterial status road. Therefore, a restaurant would not be allowed. An entertainment venue would appear to be allowed as a recreational use. There are also rental cabins and campgrounds. There is no allowance for rental cabins (transient lodging) in L-2 districts.

Campgrounds are allowed upon approval of a site plan and strict criteria being met.

In other business next Monday, commissioners will select a chairman and chairman pro-tempore to conduct the meetings.

Recommended committee assignments will also be voted on.

**About Steele Plant Company**

In 1950, Claude Steele (1904-1983) began a produce business that transported peaches, apples, and other crops by truck across numerous states. His business

grew rapidly when he added sweet potatoes. Three years later his son-in-law, Dudley “Butch” Sanders (1927-1990) joined the produce business. Dudley worked as a teacher and coach while moonlighting with his father-in-law to supplement his income. They continued their regular line of work for much of the year, but in the spring months, they focused on sweet potatoes. Before too long, the Steele Plant Company became the largest sweet potato dealer in Tennessee. In 1974, the Steele-Sanders family decided to begin working with Bart Brown of Omaha Plant Farms in Omaha, Texas. Steele Plant Company was acquired to drop ship sweet potato plants for Brown’s com-

pany, soon other vendors were requesting the service of the Gleason business. Dudley and his wife, Martha (1927-2011), had two children, Ken and Kay, both of which joined in the family business. Ken and his wife, Valerie, along with Kay and her husband, Larry Hudson, currently serve as partners. Ken started full-time in 1979 and Larry joined in 1981. The current education of the family partnership is not that of a usual farming family. Ken has an engineering degree from UT Martin, Valerie has a liberal arts degree from Freed-Hardeman University, Kay has an English degree from UT Martin and Larry has an animal science degree from UT Martin. A transition was made from

focusing on raising the potatoes themselves to raising the plants for families and businesses around the country. The business has grown from a small patch of land on Gibbs Road to the 135-acre Albert Wright Farm, purchased in 2009. The current location cultivates sweet potatoes on a thirty-five-acre annual crop rotation. Steele Plant Company ships upwards of nearly 4.5 million plants a year from their downtown location. They process between 40 and 45 thousand orders a year, mostly to individuals buying a few dozen plants, shipping all 50 states and occasionally to overseas customers.

## West Carroll School Board Adds New Members

BY JIM POTTS  
jpotts@mckenziebanner.com

ATWOOD — The West Carroll School Board met Thursday evening, September 1, for their regular monthly session. Prior to discussing any issues on the agenda, board chairman William Robinson gave the oath of office to three new board members, Mrs. Betty Wallace, Mrs. Kelly Weaver, and Mr. Keith Murray, who were elected to the board in the August elections. The board elected officers for the 2022-23 school year: William Robinson was reelected as board chairman, Jeremy Jackson was selected as Vice Chair, Misty Mitchell was named Secretary/Treasurer, and Betty Wallace was named to be the board's Tennessee Legislative Network Officer. Board members approved the consent agenda which included accepting resignation letters from Bethany Hughes and Brittany Foster along with the minutes from the August 11 meeting. They voted to allow West Carroll's food service to sell three Hobart Mixers as surplus. School Director Preston Caldwell introduced several board policies that required some changes. Policy 1.102 regarding board members

legal status is an updated policy. Policy 3.202 which is the Emergency Preparedness Plan now requires a remote learning drill. 3.205 is the Security policy which needed some rewording. Board member Betty Wallace asked what the chain of command would be in the event of an active shooter. Director Caldwell responded that initially the two SSO (School Security Officers) would be in charge until the Carroll County Sheriff's Department got to the scene. Director Caldwell went through several TSBA policies that needed to be changed or adjusted. They included Policy 3.211 New Project Planning required a rewording of the policy. Policy 5.106 regards application and employment now states the school system cannot employ teachers without a license or permit. Policy 5.119 is a new policy which now allows the hiring of retired teachers, if necessary. Policy 6.4031 deals with Pediculosis (head lice) issues. The policy was updated to read that once a student is treated, they can return to class. An example would be the school nurse treating a student and sending them back to class. Policy 6.409 is a child abuse policy that mandates annual training each year.

During the principals' reports, it was announced parent-teacher conferences are September 6 and school pictures are the first week of October in the primary school. It was announced the Junior High was 3-0 (now 3-1) and the High School was also undefeated at 2-0 (now 3-0). Homecoming celebrations are in September for both schools. Director Caldwell reported the school system remains in COVID Phase 3 status. West Carroll has been using a 4-phase system since 2020 to indicate the COVID spread in the school system. Phase 3 places the school system as having minimal spread of COVID. Phase 4 is the goal which is no spread at all. He indicated all of the school buildings are in good shape except for roof repair ongoing at the Primary School. He told the board there have been power outages at the Jr./Sr. High School related to the road construction going on nearby. In closing, Caldwell congratulated the new board members on their election and looks forward to working with them. The meeting was adjourned with the next meeting set for Thursday, October 6.

Kim Carter, city recorder for the Town of Huntingdon and the fiscal agent for the Carroll County Watershed Authority said a portion of the funds are held in a Regions Bank Escrow Account until the financial transactions are complete. The local Carroll County

Watershed Authority, consisting of Natalie Porter, chairman, Joseph Butler, Joe Smothers, and Bob Clark will continue to serve at least until all financial business of the Authority are complete. Along with the retirement of the debt, the annual \$10 wheel tax ends December 31, 2022. The fee is assessed on each registered motorized vehicle in Carroll County. Carroll County voters ap-

proved the \$10 wheel tax on each motorized vehicle in a referendum on November 7, 2000, when the vote was 5,441 to 4,851 to add the wheel tax and pay 30 percent of the total estimated cost of \$10 million. The lake and subsequent development exceeded \$25 million. The tax started after the Watershed Authority received its U.S. Army Corps of Engineers 404 permit for construction. Carroll County 1000-Acre Lake

opened in March 2013 as a means to control flooding and for economic development in the county. It is located in the Leach Community, south of Huntingdon on Highway 70. In December 2021, the lake was named a Bill Dance Signature Lake, essentially one of the best fishing lakes in the state. It was renamed Lake Halford in honor of retiring State Representative Curtis Halford (R-Dyer).

# Dale R. Kelley

## The Early Years

For two years, I have been on the cusp of writing a series of Weekly 150 articles on the life of Dale Kelley. Following his death a few weeks ago, I figure it's finally time to pay homage to a man whose name has become synonymous with Huntingdon and Carroll County.

The story of Dale Kelley starts in Carroll County near Reedy Creek in an area now part of Lake Halford. Born October 19, 1939, to William Jesse Kelley (1914-1986) and Ruth Helen (White) Kelley (1917-2000), Dr. R.B. Wilson delivered Kelley. Dale was the second of three boys; James was the oldest, Dwayne the youngest.

By 1947, the Kelleys had given up agriculture as the boys' parents began working at the Publix Shirt Corporation. Dale and his brothers constantly changed schools as the family moved from house to house. It wasn't until about the sixth grade that Dale found stability. From sixth grade until he graduated from Huntingdon High School, the family lived within the zoning for the Huntingdon School District.

Teenage Dale was not necessarily the top student academically at Huntingdon, but he did shine athletically. In his autobiography, Dale stated, "My life as a child and teenager center upon sports; neighborhood pick-up games, Saturday mornings at a ballpark, cross-town competitions, school rivalries,

Little League. Although to the best of my knowledge there were no other athletes in our family, sports played a major role in my formative years from my earliest days as a student in those tiny one-room schoolhouses through my years as a Bethel University student-athlete."

Like most youths, he played baseball growing up and was on the high school team his senior year (1957 was Huntingdon's first year to sponsor a team). Too skinny for football at 120 pounds, Dale turned his focus to basketball. He lettered for three years and was named captain his senior year.

After his high school graduation, Dale was not financially able to attend college but he was determined to make it part of his future. In the spring of 1958, he decided to enlist in the U.S. Air Force. Soon he was on a transport to Lackland Air Force Base near San Antonio, Texas to begin basic training. Then it was off to Wichita Falls, Texas to train in telecommunications.

His training was on teletype machines where he focused on encryption patterns for incoming and outgoing messages. Dale's first assignment was at Tyndall Air Force Base in Panama City, Florida. When not in work detail, sports remained the center of his world. This included winter basketball and spring baseball (base and city league teams) at Tyndall.

While stationed a year at Sioux Lookout Base in Ontario, he learned to curl

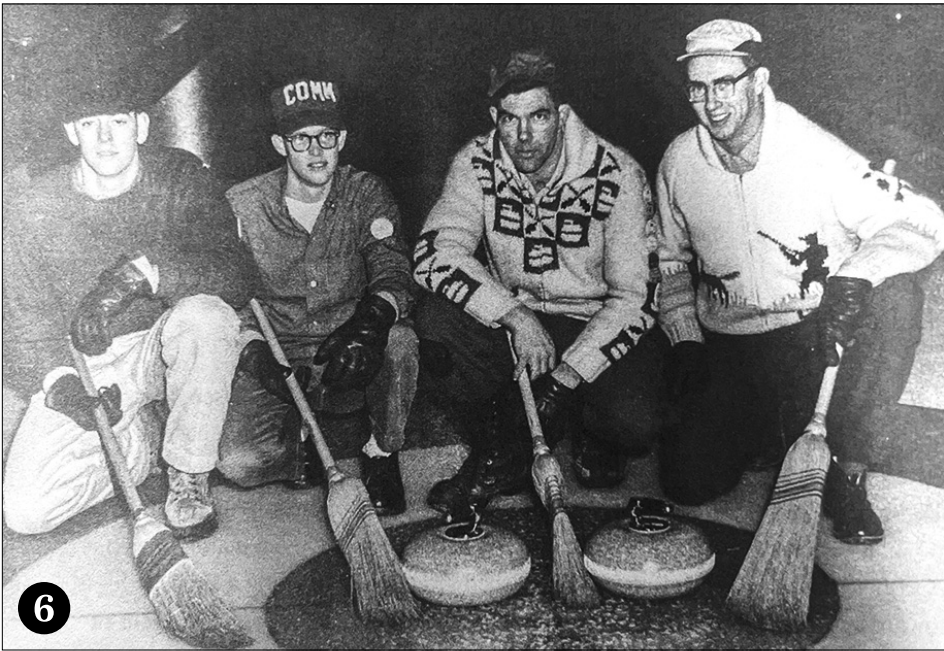

and survived subarctic temperatures. He was able to find time for basketball and baseball.

His final assignment was MacDill Air Force Base in Tampa, Florida. He was part of a radar squadron with top-secret clearance for decrypting and encrypting all communication. In 1962, the 32nd Air Division newspaper, The Guardian, selected Dale as the runner-up for Sportsman of the Year for his participation in basketball, softball, touch football, volleyball and paddle ball. One event at MacDill stuck with Dale.

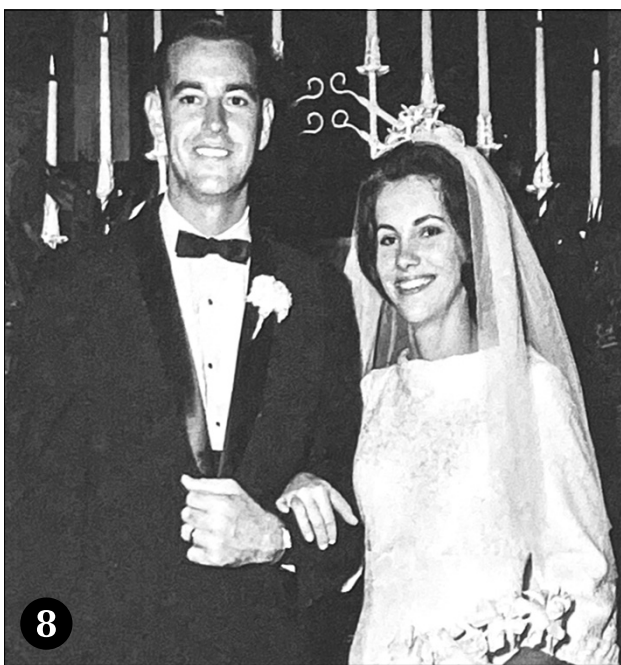

"One October morning in 1962, a flash message erupted across the teletype machine while I was on duty. A flash message carried one meaning - war is imminent. I contacted the base commander immediately, all airmen were placed on alert, and the B-52 bombers were armed and ready for takeoff. This was the Cuban Missile Crisis and I happened to be on duty at the communication center the day before Soviet leader Nikita Khrushchev backed down in the Atlantic and withdrew naval ships laden with nuclear missiles for Cuban silos."

By 1963, Dale possessed orders to ship to Vietnam but in April of the same year, his enlistment ended. He declined re-enlistment

and returned home to Carroll County. While at MacDill, he received numerous scholarship offers to play ball in Florida, and his heart was set on returning home.

After touring Bethel College's campus, Athletic Director and Coach Casey Vinson offered the 23-year-old Dale a scholarship to play basketball and baseball. He began as a physical education major before switching his major to business with a physical education and economics minor. After three years, in August of 1966, he graduated.

While a student at Bethel, Dale was attending the Carroll County Fair. There he came across Carlene Tullos working at the information booth for the University of Tennessee Extension Service. He asked her on a date, and after a year of dating, they married on September 4, 1965.

Next week, we'll pick up where we left off and head into Dale's business and political world while staying active in sports.

### HUNKER DOWN WITH KES

## Ah, But It's Still Football...I Think

On the third day of football practice my freshman year in high school Tommy Herron hit me so hard I saw stars. Literally! The whole earth started spinning. Trees behind the practice field seemed to be falling. My helmet was twisted around my face so I was looking out the ear hole.

I had tried with all my might to tackle him. He just lowered a shoulder and plowed right into me. He was a senior...and big...and strong...and football savvy...and I don't believe it was the first time he had had such a collision.

I kinda lost my sense of reality. People were talking but I was so addled it was just mumbo-jumbo noise. I was trying to catch my breath but there wasn't no air. My organs kept bouncing off of each other like an out of control pin ball machine. I still have a ringing in my left ear till this day!

I thought football was throwing touchdown passes and making eighty yard runs and dating the homecoming queen...

And on that third day, having been dragged over by the fence with all my lights dimmed, I began to think this football "thing" might not be completely as advertised. I had just regained my speaking ability as we sat down for supper and was telling the family I was having some serious doubts about my football future.

Leon asked, "Did you pass out?" Well, no, at least I didn't think so. "Shoot," Leon had graduated the year before, his fairly stellar football career behind him, "if you were not rendered unconscious then you really didn't get hit!"

Say What!! This football gig can absolutely be a conundrum at times.

You take the college game for instance. One of The University of Alabama's best running backs going into THIS season was Georgia Tech's top ball carrier LAST year. Alabama also has a new wide receiver in Jermaine Burton. He caught 53 passes over the last two years...playing for the rival Georgia Bulldogs.

Common sense would tell you that couldn't be legal!

And that's just the beginning; USC's starting quarterback last year is going to play for Ole Miss this season. But don't feel sorry for USC; they've "picked up" a new quarterback and a talented wide receiver, both played for Oklahoma last year.

J. T. Daniels has taken

snapshots for USC and Georgia and is now "suited up" for West Virginia...

It's like Chinese Checkers on steroids.

I think the official title is transfer portal. Don't ask me how it works. You just decide you want to be somewhere else and presto...you are there! They must've got the idea from watching old reruns of "Star Trek" where Scotty could magically beam you "from here to over yonder" in nothing flat.

I don't know what it says about loyalty. But I'm not sure college football is about "winning one for the Gipper" anymore.

I truly can't tell if these portal guys are searching for greener pastures, have been beaten out of their position by an incoming freshman, want to get closer to home or just like red better than blue....or green

and white better than black and gold...

With as many as two thousand players entering the portal, it's a wonder they don't bump into each other's beams...

And to confuse the issue even more college football players today are allowed to make money "selling" their Name, Image and Likeness to a varying degree of sponsors wanting to capitalize off the fame (or potential fame) of these athletes. This NIL business is another conundrum all to itself. And I don't know how it works either. I can't even start to think of a TV show with this much imagination. But there are college players inking six figure deals quicker than you can remove your finger from a hot stove.

I'm proud for them. And maybe it is high time these young athletes are monetarily compensated for filling up those college stadiums (and bringing rich TV deals to the school) week after week every fall. Listen, if some

NIL deal had'a paid Leon any amount past what he started out making at Brown Shoe Company, some school would have retired his jersey by now.

I just wonder if we are still calling college football an "amateur" sport these days.

And where is all of this freedom of movement and exceptional amounts of money taking the game? It seems to me that inevitably all of the best athletes will end up at the richest schools. And you know what I mean by richest...the ones with alumni or friends who can "come up" with sponsors with the deepest pockets.

Think Texas oil money here!

I'm telling you, trying to decipher the current condition of college football feels like I've been run in to "all over again" by Tommy Herron!

It's almost a game within itself...

Respectfully,  
Kes

# Henry County Solar Farm-Puryear on Target for Completion in December

BY SHANNON MCFARLIN  
NWTN Radio

Puryear, Tenn. — The 6.75 megawatt solar installation at Paris Solar Farm – Puryear is on pace to be completed by early December.

Paris Utility Authority CEO Terry Wimberley said the Paris Board of Public Utilities “will realize a savings of almost \$300,000 per year by purchasing the solar generated power.”

The Paris Board of Public Utilities, the Tennessee Valley Authority and Silicon Ranch—along with county, city of Paris nd Puryear officials—held a groundbreaking ceremony for the new solar facility being built in Puryear in

April of this year.

The 80-acre solar facility will generate 6.75 megawatt (MWAC), enough energy to power approximately 1,000 homes annually.

At the groundbreaking, Wimberley said it was expected to begin delivering energy to the Paris BPU electric grid in December and that is still the timeline.

Wimberley said from the construction site, “We’re excited about this. It’s a positive thing for our community. We’re going to be buying power cheaper than we do from TVA today.”

The facility is part of TVA’s Generation Flexibility Program, which is designed to encourage local power companies to develop distributed generation

facilities and provide local solutions to the renewable needs of customers, while also improving the carbon position of the region. Through Generation Flexibility, TVA enables local power companies to generate up to 5% of their total energy load to meet the renewable energy goals of their customers, attract sustainability-focused businesses to their communities, and solve individual challenges for their customers or distribution systems. Because economic development is an important part of Paris BPU’s mission, flexible solutions like the one offered by TVA add another tool to the toolbox in the company’s conversations with industry partners.

# McKenzie Garden Club News

The McKenzie Garden Club met Friday afternoon at the First Cumberland Presbyterian Church with President Myra Sasser calling the meeting to order. Marlene Kreuter opened the meeting with a devotional based on Rev 7:17. She spoke of how, on a hot day when working in the yard you want to finish, but know that you need to take and break, and take in water so you can finish your work refreshed. Jesus Christ is the Living Fountain, the Water of Life, and just as you need to stop and be refreshed before you can finish your task, you also need to set aside time and drink from Jesus’ fountain in order to be refreshed. After prayer, the members were treated to a lovely light lunch prepared by hostesses Linda Crawford and Donna Ward.

Following lunch, Martha Sue Peters introduced her guest Mona Batchelor, who presented a slide show featuring the iris,

daffodils and zinnias she has grown and propagated over the years. She stated that her aunts had many daffodils and iris from the 20’s and 30’s, and friends and neighbors would exchange seeds and bulbs through the mail.

Mona spoke of her three favorites in the summer: Daffodils: whether you call them Jonquils, Daffodils or Buttercups, they’re all Narcissus, and the various types bloom at different times. Daffodils are called “Lenten Lilies” in Great Britain.

She is a bit more serious about her Iris – the Fleur de Lis or flower of life. She explained their several parts to the group, and pointed out the sections of the rhizome referred to as the mother, the daughters and the granddaughters. Even when the mother stops blooming, it will continue to increase

Mona then showed the members how each zinnia seed is attached to each petal, and that leaving the

petal attached is a good way to space the seeds when planting. Simply scratch the soil and drop the seeds. Barely cover them, and water them in. She suggested planting every two weeks, and be ready to share them with goldfinch, hummingbirds and butterflies.

At the conclusion of her presentation, Mona took questions, and then presented each member with a lovely gift bag containing an iris rhizome, a daffodil bulb and a packet of zinnia seeds.

Fifteen members then answered the roll call, the minutes of the May meeting were read & approved, as was the treasurer’s report.

Following the business portion of the meeting, the meeting was adjourned with the reading of the collect. Before the members began to leave, they were delighted to know that Mona decided to become a Garden Club member.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

See solution in next week's edition.

# Cats Pull Off Upset of No. 9 Reinhardt

## COURTESY BETHEL SID

**WALESKA, Ga.** — The Bethel Wildcats football team and the No. 9 Reinhardt Eagles met for the eighth time in the series last Saturday, September 3. As in the past, it was another intense and hard-fought affair.

Reinhardt scored and went for two to lead 8-0. Bethel's Joaquin Collazo scored on a one-yard effort to make it 8-6.

What appeared to be a high-scoring affair with both teams scoring on their first possessions, turned into being anything but. Both defensive squads were stout after those first two scores.

In the second quarter, Bethel's defense stopped the Eagles on a fourth and three from inside their own 15-yard line. Timothy Hamilton deflected a RU pass attempt to deny the Eagles. Later the Cats, forced RU into a 26-yard field goal attempt which was missed. The Eagles led 8-6 at the half.

On their second possession of the third quarter, the Cats finally got the big play they were looking for. Joaquin Collazo hit

J D Dixon on a 47-yard pass which gave Bethel a first and goal at the RU seven-yard line. One play later, Collazo found Dixon for the score to put Bethel up 12-8. Austin Abbott nailed the point after to give the Cats a 13-8 lead. Reinhardt moved down the field and had a fourth and goal at the Bethel one yard line, but Bethel's defense did it again with a gigantic stop. The Cats led 13-8 after three.

In the fourth quarter, Bethel's defense came up big, time after time. The Eagles moved into Bethel territory, but Amari Chapman came up with a huge fumble recovery giving Bethel possession. Later the Cats came up big again with a stop on downs and took over at the RU 45-yard line. Bethel, behind the running of Re-

inhardt transfer Terrance Roberts, moved deeper into RU territory which set up an Austin Abbott 37-yard field goal which gave Bethel a 16-8 advantage. Appropriately it was the Cats defense which had the last statement as Demetrice Gilbert picked off an Eagle pass to ice the game.

Coach Michael Jasper commented, "I cannot say enough about our program right now. These guys have a ton of grit and showed it today against one of the top teams in the nation. My hat is off to Coach Miller and the entire Reinhardt program. Their guys always play with a ton of heart and fight tooth and nail but so do we. We may not get a lot of respect, but our kids deserve it. My staff and everyone at Bethel University deserves it. If they will not give it, then we will continue to just take it."

The Cats return home to battle Point University this week. The game begins at 1 p.m. with Bethel holding a 1-0 margin in the series. It will be Henry County Schools Day. Gates open at 11:30 a.m. The Wildcat Walk begins at 11:20 a.m.

## Huntingdon Routs Camden

HUNTINGDON — The Mustangs hosted Camden on Thursday night, September 1 going in with a 1-1 record and had a big night against the Lions rolling to a 57-0 win.

The Mustangs rang up six scores in the first half against the Lions and were a perfect 6-6 on extra points to build a 42-0 lead by half-time.

The Mustangs started the second half with a quick score on a 33-yard touchdown by Elijah Flowers (8). The PAT was good for a 49-0 lead. After swapping possessions, Huntingdon got a drive going deep in Camden territory near the end of the quarter but fumbled it to the Lions.

Camden had possession to start the fourth quarter but didn't get far having to punt from inside their own 20. The Mustangs took over from their 37-yard line and drove deep into Lion territory again before committing another fumble well inside the Camden 10-yard line. Jeramyah Cannon sacked Camden's quarterback for a safety making the score 51-0. Due to the penalty rule on a safety, Camden had to kick off from their own 20 which gave the Mustangs possession at their own 40-yard line. Freshman Tyreke Hutch took off on a 60-yard dash to the endzone for Huntingdon's final score. The PAT was no good with the score increased to 57-0 which was the final score.

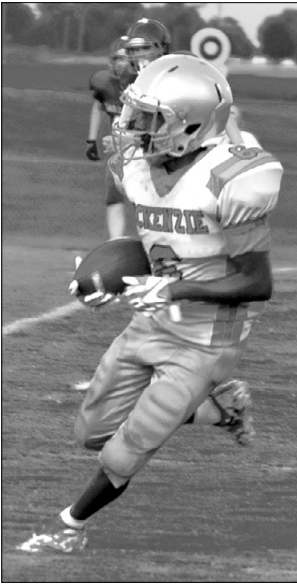

Mustang Elijah Flowers had a big night on both sides of the ball rushing for three touchdowns and recording six tackles, five tackles for loss and four quarterback sacks.

## MMS Rebels Hand West Carroll First Defeat

BY JIM POTTS  
jpotts@mckenziebanner.com

ATWOOD — McKenzie Middle's Rebels traveled to Atwood on Thursday, September 1 for a game against the unbeaten War Eagles. It didn't take long for either team to score with both teams finding the end zone early in the first quarter for a 6-6 tie halfway through the quarter. West Carroll scored first on a five-play drive for a touchdown. The 2-pt conversion was no good for a 6-0 War Eagle lead. McKenzie answered with a short drive for a score. A 51-yard pass and catch from Cole Brown to Jacobi Melton set up the Rebel's first score. Matteo Campbell scored from 1-yard out with the 2-point conversion no good to tie the game 6-6.

The Rebels found pay dirt again with 2:25 left in the opening quarter on a 55-yard TD run by Melton with the 2-point conversion good for a 14-6 lead. After sacking the West Carroll quarterback for losses on

third and fourth down, the ball went over on downs back to the Rebels at the West Carroll 23-yard line. Two plays later, Cole Brown took it in for a touchdown with the 2-point conversion attempt no good increasing the Rebel lead to 20-6 near the end of the first quarter.

West Carroll began the second quarter with possession at midfield and lost yards on a sack and a penalty leaving the War Eagles with a 4th and 29 situation. They threw an incomplete pass and McKenzie got possession on downs. They didn't keep possession long with West Carroll recovering a fumble and then giving it right back to the Rebels on an interception by Jacobi Melton who took it to the War Eagle 5-yard line. One play later Melton ran it in the end zone for a Rebel touchdown with four minutes left in the first half. The two-point conversion attempt was no good leaving McKenzie with a 26-6 lead.

McKenzie got another interception on West Carroll's next possession by

Matteo Campbell at the Rebel 10-yard line. Cole Brown hit Avery Brown on second down with a 58-yard pass putting the Rebels in War Eagle Territory. The next play went the final 38 yards with Brown hitting Jacobi Melton on a swing pass. Brown ran in the two-point conversion for a 34-6 lead which was the half-time score.

The War Eagles started the second half with an onside kick that they recovered giving them field position in McKenzie territory. Neither team scored in the third quarter and headed into the fourth quarter with the Rebels leading 34-6. The Rebels had one last score on a drive capped by a 15-yard touchdown run by Cooper Davidson. Davidson also ran for a two-point conversion increasing the Rebels lead to 42-6 which ended up as the final score.

Both McKenzie and West Carroll will be in action on Thursday, September 8 with McKenzie hosting Henderson County North and West Carroll hosting Henderson County South.

## West Carroll Slips By Humboldt

BY JIM POTTS  
jpotts@mckenziebanner.com

ATWOOD — The first region contest of the season had the War Eagles hosting the Humboldt Vikings in a low scoring defensive game. West Carroll went into the contest unbeaten after defeating Bruceton and Gleason in the first two weeks of the season.

Humboldt won the toss and took the ball first going three plays and punting to the War Eagles. They went right to work from near midfield with Jay Long dashing 24 yards to the Viking 21 on first down. Several plays later Long put the War Eagles on the board with a 3-yard touchdown run with 5:50 left in the first quarter. The PAT was good for a 7-0 West Carroll lead. Both teams swapped possessions with no score before the first quarter clock expired.

Humboldt punted to start the second quarter. The War Eagles took possession at their own 47 yard line and lost yards on bad plays and penalties and fumbled the ball back to Humboldt at the West Carroll 10. Humboldt's Eli Moore took the ball the final 10 yards for a Viking touchdown with 10:10 left in the second quarter. A 2-point conversion pass failed leaving the War Eagles with a slim 7-6 lead.

West Carroll chewed around six minutes off the second quarter clock on a drive that stalled at the Viking 23-yard line. On fourth down, West Carroll missed converting the first down by a foot and turned the ball over on downs. Humboldt drove several plays to near midfield before the clock ran out at halftime.

The third quarter went back and forth with no scoring but it was exciting with both teams forcing turnovers and quarterback sacks. West Carroll threatened to score once reaching the Viking 24 before fumbling the ball away. Humboldt attempted a fake punt on fourth down late in the quarter which failed. The War Eagles took over and drove into Viking territory on a drive that ended the third quarter and rolled into the fourth quarter. They stalled on the Humboldt 30 and failed to convert a fourth down play turning the ball over on downs.

The Vikings drove the ball back to near midfield before having to punt on fourth down. The War Eagles took over and drove downfield mostly behind two nice pass catches by Jay Long. On the fifth play of the drive, Long took it 23 yards for a War Ea-

gle touchdown. The PAT kick by Jose Martinez was good for a 14-6 lead with 6:55 left in the game.

Humboldt took the ensuing kickoff and drained almost five minutes off the clock and threw two back to back incomplete passes turning the ball over on downs to the War Eagles with 1:28 left to play. West Carroll ran off the rest of the clock on three plays securing the win.

Jay Long helped lead the way with 20 carries for 182 yards and two touchdowns. Jayden Milton ran 20 times for 109 yards. Seth Edwards posted seven tackles with six being unassisted. Three other War Eagles posted four tackles each. The War Eagles remain unbeaten and will travel to South Fulton this week before hosting Halls for Homecoming on September 16.
