 TWENTY-FOURTH JUDICIAL DISTRICT
 AT SAVANNAH**

DARRELL HARP ENTERPRISES, INC.
 Plaintiff,
vs. **SHAWN "BO" EDWARDS,**
 dba, EDWARDS IMPLEMENT COMPANY, LLC,
 Defendant. **Docket No. 2018-CV-19**

ORDER OF PUBLICATION

IN THIS CAUSE, it appearing, that Defendant, SHAWN "BO" EDWARDS, dba, EDWARDS IMPLEMENT COMPANY, LLC'S whereabouts are presently unknown and cannot be ascertained upon diligent inquiry, so that ordinary process cannot be served upon her. Defendant, SHAWN "BO" EDWARDS, dba, EDWARDS IMPLEMENT COMPANY, LLC, is therefore hereby required to serve his Answer to the Complaint on Chadwick G. Hunt, Attorney at Law, 450-A Main Street, Savannah, Tennessee 38372, the attorney for Plaintiff, on or before the 6th day September of 2018, said date being 30 days after the fourth publication of this Order. If said Defendant fails to do so, Judgment by Default will be taken for the relief demanded in the Complaint. It is further ordered that this notice be published in The Courier for four (4) consecutive weeks.

Witness, Diane Polk, Clerk of said Court at office in the Hardin County Courthouse, Savannah, Tennessee, on this the 2nd day of July, 2018.

COUNTY GENERAL ELECTION BALLOT

OZone

Continued from page 2B

game off with a hit, Dace Franks walked, and Will Stricklin drove them both in. Dace Franks took the mound leading 2-0. After Dickson County's lead off batter got a hit Franks settled in to what ended up being his best game ever. Dace pitched all six innings, throwing 69 pitches, striking out seven while allowing four base hits and no walks. Savannah picked up an 11-1 win over Dickson County. Dace Franks, Will Stricklin and

Nathan Lambert each had two hits. Brayden Turner also made the best defensive play of the tournament in left field with a diving catch on a ball that had extra bases written all over it.

Lebanon 10 Savannah 0

The championship game paired Savannah against Lebanon one more time. Savannah would have to defeat Lebanon two times to be the Ozone champs. Coach Chris Smith let them know after the Dickson County game, with that win they were now the Tennessee Majors champs.

Matthew Milford took the mound to start the game. After three innings and some errors the score was 5-0. Will Stricklin came in to pitch the fifth inning. Savannah had some more mistakes and lost the game 10-0 in five innings. Will Stricklin had the only hit for Savannah, which was a double. Another bright spot of this game was after the lead off batter for Lebanon beat out a ground ball hit to second base, Trenton Brasher stepped up and recorded five outs, not bad for one of Savannah's 10 year-olds moving up to play 11-

12 year old baseball. Cameron Smith and Clayton Brasher are also 10 year-olds playing up in 11-12 year old division.

"For a team of 12 players picked from 26 league players they have come a long way," said Coach Chris Smith. "With a lot of hot practices and parents that trust the vision we had of building a team, that's what they have become. They play together as a team, they believe

in each other, pick each other up, and trust each other. These boys are blessed with good parents and coaches. They have grown into one of my favorite teams.

"We want to give a special thanks to Carson Stanley for commentating the games, and Chris Adams for live streaming."

The Savannah squad is awaiting the arrival of their

brand new Team Tennessee uniforms, practicing hard and raising funds for their World Series trip expenses.

Tennessee will face South Carolina in the first game of the Dixie Youth Baseball 2018 Majors World Series in Lumberton, North Carolina Saturday, August 4 at 3:30 p.m Eastern Time. 12 teams will participate in the week-long event.

Above, Dace Franks moves into position to receive this pick-off throw at second base.

At right, Savannah First Baseman Carter Stanfill stretches out for a throw from his teammate.

Fire on board a boat...

Submitted by:
Stephen Graves
Hardin County Wildlife Officer
TWRA

Fire aboard a boat can be a terrifying experience. A person may only have a split second to act to save themselves and all passengers. The importance of having fully charged fire extinguishers on hand is vital.

Most boat fires can be put out rapidly if you act immediately. Do not hesitate. If a fire starts, grab the extinguisher, activate it and direct it at the base of the flames. Use short bursts and sweep it from side to side. Do not wait until a fire starts to read the directions on the label. Take the time to make sure that you and those who boat with you regularly know and understand exactly how to use the fire extinguisher.

There are several preventable measures to take in order to avoid most boat fires:

- Clean bilges often and maintain proper gear stowage.
- Make sure short-tie cables are properly connected.
- Place oily rags in covered trash cans or dispose of them on shore.
- Store propane fuel for stoves in a secure area.

If and when a fire does break out on board your boat, never use water on fires started electrically, by gasoline, oil, or grease. Water will spread a gasoline fire and since water is a conductor of electricity, you may receive a damaging shock from an electrical fire. Water should only be used to extinguish burning wood, mattresses, rags, rubbish, and alcohol. When extinguishing the fire, make sure it is completely out. If not, it may smolder for a long while and possibly start again. If possible, soak burning materials over the downwind side of the boat.

Also remember to avoid littering the waterways by removing any debris after the emergency is over.

Follow these steps if fire breaks out while you are underway in order to prevent the fire from spreading to other parts of the boat:

- Slow or stop the boat. Wind from the boat's motion feeds the flames.
- Keep the fire downwind. If the fire is aft, head the bow into the wind. If forward, put the stern into the wind.

• If the motor catches fire, shut off the fuel supply immediately.

Always remember not to panic. Many boats burn to the water line because people jump overboard without assessing the situation first. If you realize that the fire cannot be put out with the fire extinguisher, put on your life jacket and exit the boat upwind of the burning craft. Use a radio, cellular phone, or visual distress signals to gain assistance.

PUBLIC NOTICE
TENNESSEE DEPARTMENT OF ENVIRONMENT AND CONSERVATION
Division of Water Resources
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, Tennessee 37243

TO WHOM IT MAY CONCERN: The application described below has been submitted for an Aquatic Resource Alteration Permit under The Tennessee Water Quality Control Act of 1977, T.C.A. §69-3-108. In addition, federal permits may be required from the U. S. Army Corps of Engineers and the Tennessee Valley Authority under §404 of the Clean Water Act and §26a of the Tennessee Valley Authority Act, respectively. Section 401 of the Clean Water Act requires that an applicant obtain a water quality certification from the state when a federal permit is required. This notice may cover applications subject to §401. No decision has been made whether to issue or deny this application. The purpose of this notice is to inform interested parties of this permit application and to ask for comments and information necessary to determine possible impacts to water quality. Persons wishing to comment on the proposal are invited to submit written comments to the Division. Written comments must be received within **thirty days of the date that this notice is posted**. Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced. Send all written comments to the Division's address listed above and to the attention of the permit coordinator (indicated below). You may also comment via email to water.permits@tn.gov. If it is hard for you to read, speak, or understand English, TDEC may be able to provide translation or interpretation services for you free of charge. Please contact Danyelle Valentine at 615-532-0162. After the Division makes a final permit decision, a permit appeal may be filed by the applicant or by any person who participated in the public comment period whose appeal is based on comments given to the Division in writing during the public comment period or in testimony at a formal public hearing. The permit application, supporting documentation including detailed plans and maps, and related comments are available at the Division's address (listed above) for review and/or copying or by visiting the TDEC website at <https://www.tn.gov/environment/topic/ppo-water> and searching on the Application Number listed below. Interested persons may also request in writing that the Division hold a public hearing on this application. The request must be filed within the comment period, indicate the interest of the person requesting it, the reason(s) that the hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the Division shall hold a public hearing in accordance with 0400-40-07-.04(4)(f). In deciding whether to issue or deny a permit, the Division will consider all comments of record and the requirements of applicable federal and state laws. In making this decision, a determination will be made regarding the lost value of the resource compared to the value of any proposed mitigation. The Division shall consider practicable alternatives to the alteration, loss of waters or habitat, diminishment in biological diversity, cumulative or secondary impacts to the water resource, and adverse impacts to unique, high quality, or impaired waters.

APPLICATION NUMBER NRS 18.157
PERMIT COORDINATOR Adam Kelly
615-253-5348
Adam.T.Kelly@tn.gov

APPLICANT West Tennessee River Basin Authority
3628 East End Drive
Humboldt, TN 38343

LOCATION White Oak Creek, Hardin County Latitude: 35.341115 Longitude: -88.266269

PROJECT DESCRIPTION / PURPOSE The applicant proposes to restore over 50,000 feet of White Oak Creek and its tributaries. An additional 15,720 linear feet will be incorporated into the currently channelized streams, optimizing sediment transport, improving debris processing, increasing stability and reconnecting stream and wetland habitats to base flows.

POINTS OF IMPACT
STREAM 1: Latitude: 35.341115 Longitude: -88.266269
White Oak Creek
The current 23,930 linear foot canal will be replaced by 33,100 linear feet of constructed meandering stream channel. The existing scrub and open water wetland will likely convert to a forested wetland in the upper reaches of the stream. The middle stream reach will likely trend towards being seasonally flooded while the lower reach will persist as shrub and open water wetland.
STREAM 3: Latitude: 35.352786 Longitude: -88.32393
Middleton Creek
The current 4,400 linear foot canal will be replaced by 6,100 linear feet of constructed meandering stream channel. The existing shrub wetland consisting of dying timber and beaver modification will likely convert to a seasonally flooded forested wetland.
STREAM 4: Latitude: 35.350265 Longitude: -88.296808
Hurricane Creek
The current 10,800 linear foot canal will be restored by the construction of 14,230 linear feet of meandering stream channel. The existing scrub wetland will likely convert to a semi-permanent or seasonally flooded forested wetland.
STREAM 5: Latitude: 35.337383 Longitude: -88.261102
Mud Creek
6,000 linear feet of the existing canal will be abandoned and 2,200 linear feet of the existing stream will be meandered into White Oak Creek to improve competence. The existing scrub wetland will likely convert to a forested wetland.
STREAM 6: Latitude: 35.343125 Longitude: -88.253377
Crooked Creek
The current 980 linear foot canal will be restored by the construction of 2,100 linear feet of meandering stream channel. The fully blocked floodplain will likely convert to a forested wetland.

WATERSHED / WATERBODY DESCRIPTION The Tennessee Western Valley (Beech River) Watershed is located in Tennessee and Mississippi. The Tennessee portion of the watershed (97.8 percent of the watershed) includes parts of Benton, Carroll, Chester, Decatur Hardin, Henderson, Humphreys, McNairy, Perry and Wayne counties. It drains approximately 2,097 square miles, 2,041 square miles of which are in Tennessee, and empties to the Tennessee Western Valley (KY Lake) Watershed. To view the proposed location of these impacts and the watershed condition visit: <http://tdec.state.tn.gov/dwri/> and search on the permit number listed in the title of this Public Notice.

DETERMINATIONS In accordance with the Tennessee Anti-degradation Statement (Rule 0400-40-03-06), the Division has made a preliminary determination that the proposed impacts will result in no greater than de minimis degradation to water quality.
